## Customer Reviews

This book has been plagiarized largely from the Wikipedia, Wikitravel, and martinique.org. It was not worth the \$0.99 price. Separately from this particular book, I give a very low rating to the "cloud" reader. First, there is no provision for searching for text within a book. Second, the "download" feature does not work within Firefox under Linux: the instructions specifically for Firefox do not work.

first of all Kindle connects to 3G free network in Martinique. so far kindle connected to a network in each country have tried.as before I used Mobi guide for general orientation. As with other guides Mobi delivered consistent information for a fraction of the price you normally pay.Just one correction. entrance to Balata garden is now 12.50 euro. frankly for this price I could have skipped the garden.
