Avatar: The Last Airbender: Legacy (Insight Legends)

Synopsis

Aang, the much-loved hero of Nickelodeon's hit animated series *Avatar: The Last Airbender*, takes readers on an exciting and interactive journey through his thrilling world. Earth. Air. Fire. Water. These are the four nations that lived in harmony until the Fire Nation attacked. For the next hundred years, war raged across the globe. It was believed that all inhabitants from the Air Nation had perished. Then, a girl and her brother discovered a twelve-year-old boy frozen in an iceberg. His name: Aang. He is the Avatar, the master of all four elements. Together Aang and his friends went on to save the world! Now a man, Aang looks back on these adventurous years—from being found in the ice to fighting epic battles to negotiating peace. This is Aang's story, his mementos, and keepsakes. *Avatar: The Last Airbender: Legacy* is the collection that Aang passes down to his son Tenzin, who will one day be a master Airbender, too. Readers will relish Aang's heroic tales and the posters, clippings, cards, and maps he gathered along the way! About the Insight Legends series: Insight Legends is a collectible pop culture library featuring books that take an in-depth look at iconic characters and other elements from the worlds of comics, movies, television, and video games. Packed with amazing removable items that give the books an immersive, interactive feel, the series delivers unparalleled insight into the best-loved heroes and villains in modern fiction and the worlds they inhabit.

Customer Reviews

Michael Teitelbaum is the author of more than 150 books, including tie-in novelizations based on movies and television shows as varied as Spider-Man, Superman, Avatar, Teenage Mutant Ninja Turtles, Smallville, X-Men, Batman, Transformers, Garfield, and Kermit the Frog.

Since June, I have been waiting on pins and needles for this book. I was so excited, thinking that we would finally get the chance to read about Aang and the Avatar team after the series - spanning from the last episode and leading up to his death. Honestly, all I really wanted was to see images from Aang and Katara's wedding. Instead, I got another, but poor, rehashing of the Avatar series. The Legacy was actually Aang's diary for Tenzin. Aang wanted Tenzin to know his history, about the Airbenders and basically recalling the events leading up to the defeat of the Fire Lord. Katara, Toph and Sokka had 2 pages to add their 2 cents. The book was divided up by the four nations. Aang goes a little deeper into each nation and gives a few interesting facts, like population, bending, seasons of the most births and philosophy. There are random postcards, small posters, and a comic. There aren't a lot of these and seem forced to make it diary-like. It was an easy, quick read. The font might be a little small. The book is beautifully made. The cover is gorgeous. The pages are good quality. The images are sharp and clean. But the book is incredibly short, despite the price. And my main pet peeve was the artwork. I guessed I got used to the high quality from the other books that I own. I don't know if it was intentional, but the art work was not good and there was a mix of old and new artwork. It was too much a clash that it was distracting. I don't know if it was because they used a different publisher or what, but it saddened me after seeing such an awesome cover. If you are like me, who collects all the comics and artbooks, it didn't really bring anything new. Considering the price, the length and the content is definitely not worth it. I would've waited if I had known. This is an absolute miss for me. However, if you are coming late into the series or just seen only Korra, this will be a good way to get a quick recap of ATLA. Depending on what you already own, you might get a different reaction than me. In the end, I was disappointed.

I was looking forward to this so much. I thought it would be fun and full of so many different things. I read it in about an hour, or an hour and a half. That really kind of stinks since I ordered it on June 17th in anticipation that this would be the best thing since sliced bread. I was really looking forward to a lot of stories that happened after the show ended. What Team Avatar did after. I understand the premise that it's Aang telling Tenzin about things. But really, is that the only thing Team Avatar ever

did together? They could have built upon "what happened after" a little more. Oh well, maybe next time.

Good read and I like to read about shows that i like to watch. so very insightful and well written.

Always excited when something new comes out from this show as my daughter (9 yrs old) and I love this show and the LOK. The only sad part was we finished it so quickly because of our excitement. Well worth it- beautiful illustrations in hard cover, with wonderful mementos and touching letters from Aang's journey. If you're a fan of the show, and want to keep the magic going, definitely get it. You won't be disappointed.

Was very excited to receive this book. Was a little disappointed to find a large scuff marks across the front of the book. If you're a huge Avatar fan then you will like everything that comes in this book.

I had been looking forward to this book for months, in the hopes that I would get atleast some new hidden info, more about Team Avatar's lives outside of the show and great artwork. It glazes over the whole series, gives details into each nation (some of which would be better off in a farmer's almanac. Seriously, I preordered a book to learn which nation has more babies in winter? Seriously?), and there are some new images, but a lot of clip art/cell grabs inclusions, including one of season 1 Zuko...The writing is mostly line for line or minorly changed from the show. There is a poster included, which has varying degrees of image quality, with some animals obviously just being grabbed from the show and others being faux sumi inked. Pay an artist to finish out the loose ink style, jeez. Some of the souvenir keepsakes were glued on the wrong side, so I couldn't read the back of the postcards.Overall, I think a kid would enjoy it, but buyer beware. Good construction, well printed.If you are an adult fan wanting to hear something cool and new now that we're in a post ATLA and LOK world, avoid unless you just want to collect it for collecting sake. It's 99.9% stuff you already know, with the .1% being drivel.Otherwise wait for everyone to ditch theirs for a couple of bucks.

The idea of this book is very cool. I think it would really only be for the super fans. It doesn't add much information at all. There is really only one part that I thought was fun and that was Sokka telling his story to Tenzin. Otherwise, it is really Aang just explaining to Tenzin everything you learn

by watching the show. There are posters you can rip out. I was thinking if someone wanted to create an Avatar room the posters would be a great decoration. I like the book, but it's not something I would really read again.

You know the story but to revisit it as he writes to his son is so cool. I was a kid when I watched Aang and his friends story and now to read it as an adult...It brought back warm memories I felt like I was on that journey with them and you feel you are on that journey with Aang again as he writes to Tenzin. I just wish they would do a movie with them as adults before Korra.
