This is an ADORABLE book that combines my child's love of opening the flaps with Elmo and all of the characters, plus it has the bonus of being an educational book due to all of the letters of the alphabet. It not only lists the letters of the alphabet, but it shows pictures of 5 or more items that begin with that letter as well, so the kids can see the words in action. I also really love that there are so many flaps to open in here. There are the big flaps for the letters, but also lots and lots of little flaps to hide items behind that begin with the letters. I have absolutely nothing bad to say about this book. Its fantastic! And so is the Elmo's Numbers book that is in the same format. They are

fantastic!

Great book! My 1 year or and 2 year old love it! Bigger then expected but that doesn't matter to me!

This was our son's first ABC book. We got it when he was 14 months old, and he's loved it from the start! So many colorful pictures to identify and new words to learn. He loves looking under the flaps, and talks about the different characters and what they're doing. At 19 months he's learning his letters.

My son is not obsessed with books but he likes them and he loves to "read" them himself (shh, he can't really read but he's 2 so he think s he can and it's adorable). He goes for this book more than any other these days. He yelped with joy when I gave it to him. There is so much there for him to look at and process and learn- stuff he already knows and builds confidence in identifying them correctly (including beloved Sesame Street characters) mixed with new words and challenges that he also loves but in a different way. It's so much fun to read this with him and to watch him read it to himself. This one he actually can read, and make up his own stories with them too.

My 21-month old granddaughter is obsessed with Elmo, so I looked for an educational Elmo book that would hold her interest for quite some time to come. She loves the many flaps that open on every page, and we point out all the words of the alphabet and talk about what the characters on the pages are doing. She has already learned new words after reading the book just a few times. It's too long for her to take in the entire book at one sitting, since we spend a lot of time on each 2-page spread. Many other Sesame Street characters appear throughout the pages of the book, but so far the only one she cares about is Elmo.

This is not for a younger baby. I have a 9-month old who loves flap books and Sesame Street but this one is 1) too big with too many flaps on each page (attention span issues) and 2) too difficult to open the flaps. Some of the flaps were hard for me to open let alone the baby. On other flap books, he can open and close the flaps with ease. On this one, the flaps are made of super thick cardstock so they are harder to open and close and do not have a notch or anything that makes opening easier. May be good for an older child for sure.

The lift up flaps are sturdier than some of our other books. My daughter is 18 months old and really

likes it. I wish that some of the letters had more familiar words to go with the letters because some of them are very specific to Sesame Street (like Berniece the pigeon for the letter B) or are just odd choices for a children's book. The letters are prominent and easy to point out, but it has only the capital letters, no lower case.

Cute lift the flap book. Seems durable enough. Sadly it doesn't hold the attention of my 2 year old nearly as well as the Mickey Mouse one and the Little People large lift the flap book. She will pay attention to it while I read it with her. I like the little phrases under each letter. Under G - "Grapes can be purple, red, Green, or blue."
