Eric Hill (www.funwithspot.com) left school when he was 15 and took up cartooning while working as a messenger at an art studio. He created *Where's Spot?* as a bedtime story for his two-year old son. It was published four years later, and the rest is history. Eric Hill passed away in July 2014.

The flaps are much sturdier than on the original *Where's Spot* book!!! Even my destructive toddler can't rip these off. The flaps are integrated with the board book pages and not cheap flimsy paper thin card board glued on. The story is cute. My toddler loves this book. I'm surprised it's not more popular.

Not the flip book I am use to. Instead of having flaps for doors or gates, there's a flip page instead. I'd rather have more books like "Where's Spot?" or "Spot goes to the farm"Also, the edges of the flip

pages are incredibly sharp and not rounded. My child ended up putting a huge scratch across their leg when sitting in the floor and opening the book for the first time. Had to take some scissors and trim these corners to prevent more injury.

Two year old loves this book.

worst of the spot books I've seen so far. bummed because the cover is so cute. the book is also way too big in my opinion for little hands.

This book is on the larger side and has fold out pages to discover hiding characters. Love that it is larger than the normal Spot books and that the fold outs are thicker so they are less likely to be ripped.

Great book! Larger size is nice and full page flaps help resist tearing by my 18-month old. Nice story with different animal friends. Would make a nice gift as well!

The "Peekaboo" books are my grandson's favorites.
