The Book Of Runes, 25th Anniversary Edition

Synopsis

The Book of Runes is something very special: a part of the ancient past and, perhaps, a part of your future...Based on a tradition over one thousand years old, the Runes are seen by many as a contemporary Oracle and collectively, have established themselves as a remarkable aid in practical decision making. A huge success with over 900,000 copies sold, since its original publication in 1983, The Book of Runes has proved to be a modern classic. For this, the 25th anniversary of the work, Ralph H. Blum has expanded and refined the runic system, making the Runes one of the most profoundly useful self-help tools of the new century.

Customer Reviews

Cultural anthropologist, writer, and publisher Ralph H. Blum has been working with and teaching the Viking Runes as a tool for self-counseling since 1977.

Used this book at a many friend's houses and loved it. So I decided to buy it. I WAS MISLEAD! And pleasantly surprised. Turns out, this book comes in a box with 1 set of runes and a rune satchel. See my photos. I was very surprised. I was only expecting a book.

I had received this book (that comes with a set of runes) as a gift a few years ago and loved it. I recently ordered the same for my grand daughter and sent it to her. She is thrilled with it. .We both find consulting the runes helps to get us out of our heads and all its mind chatter. It's a wonderful tool for restoring calm, quiet contemplation and heeding a guidance not driven by fear and ego.

Love casting me bones

It came earlier than expected and was exactly as described; my daughter loved the gift. The only thing left is to see if she can use them to untangle the messy world of choices she lives in.

Great book! I've had one for over 15 years and lost it, nice to have the 25th anniversary version. easy to read, easy to understand, easy to get started and put the runes to fast use!

Great book, very informative and simple. Gives some good background history on the subject, and even comes with a set of runes.

interesting if you have a curiosity like my own. Not convinced of the validity of the ruin explanations though.

This is a good book for explaining about the runes and how to read them. Great buy.
