## Customer Reviews

WOW -- This collection contains six faery novellas by six amazing authors. All six novellas are well written, smooth flowing, and very easy to read. I found it interesting how each author put their own spin the same type of fae creature described in more than one book -- yet they were so different!!!! loved them all, but I was asked to read the book by Julia Crane. Since they are all short novellas, this was easy to do in a small amount of time. I found Arrangement downright fascinating!!! (In the book, it is titled Arrange.) I loved Tulupea and Michael -- two awesomely described and very sweet characters. I loved how the author got you slowly into the story and then when Tulupea arrived on earth, how she found out her true mission while there and the things that she had to do to stay safe. I don't write spoilers - and that is hard to do when you have to write a review of such a short type book. Arranged (or Arrangement) was a fantastic story and I hope that Julia doesn't disappoint and continues the story in another book. I will warn you that the majority of these novellas are fast moving, easy reads and you will find it hard to put them down until you finish them!!!! received a complimentary copy of Arrangement (Arranged) in exchange for my honest review. All opinions shared are 100% my own. However, to give a true honest review of the entire collection, I did

purchase the book and read the rest of the selections included in the book.

Several different story-lines are presented in this compilation volume, and the quality ranges from very good to poor. Be aware that the stories range in length as well, from short stories to novellas, and each introduces a serial story with other volumes. If you are looking for stories with a conclusion, you might be disappointed, but I found it to be very enjoyable.

This is an amazing read. The stories are well written with good character development and provide a glimpse into Faery from six points of view. If you're looking for a YA introduction to Faery, this one is for you. There is something for everyone from the traditional to the modern. Get yours today. You won't be disappointed. 5 stars. I was given this in return for an honest review.

the 6 authors have compiled a list of stories that I have enjoyed , and am looking to find the rest of their stories to continue to read , I have been captivated by each story, and would like to continue to read them. .I like to read book that can keep me wanting to read more not want to put it down till the story is finished I would recommend this as a great read and I recommend looking up each author and reading more of there stories loved it

Nice to see faery realms being imagined in the fantasy jaundra, hope to find more of this kind.

As these were for the most part novellas they varied somewhat in style and quality. But for the most part they were well done indeed! More than I had expected and some fairly long efforts also. A good package, especially for the money!

Six entertaining novellas, that provide quick reads. I would recommend this box set to anyone looking for quick interesting, suspenseful, well written, novellas. Enjoy reading.

Writing is good, pace is quick, but one tires of this level of fantasy after a while.
