Hitler's Light Panzers At War: Rare Photographs From Wartime Archives (Images Of War)

Synopsis

Hitler's Light Panzers at War is a highly illustrated record of the German light tank from its beginnings in the 1930s to the key battles it fought in Poland, France, North Africa, Russia and North Western Europe. The book analyses the development of the light Panzer, which ranged from the Panzer I, II and the Czech built Panzer 35 & 38t. It describes how the Germans carefully utilized the development of these light machines for war, and depicts how these tanks were adapted and up-gunned to face the ever-increasing enemy threat. Using 250 rare and unpublished photographs together with detailed captions and accompanying text, Hitler's Light Panzers At War provides a unique insight into the many variants that saw action on the battlefield. It provides a vivid account of light Panzer operational deployment from the early Blitzkrieg campaigns to the final demise of the Nazi war machine.
