"Fresh, entertaining, and practical. I read it twice!" -- DAVID WILLIS President of National Christian Foundation
"Give your tithe to God. The rest is yours to save and spend." Sounds reasonable--right? Except that's not what the Bible teaches at all.
Two young Harvard MBAs on the fast track to wealth and success tell their story of God's transforming power and how it changed their lives and their relationship to money. They offer an honest look at what the Bible says about radical generosity.
John Cortines and Gregory Baumer, both MBA graduates from Harvard Business

School, met in a men's Bible study group where they were confronted with a topic that would change the rest of their lives. As young Christians with sky-high earnings potential, what should they plan to do with their money? This question launched a fascinating investigative journey through the worlds of faith and finance that ultimately led to a startling conclusion that challenges the values of mainstream America and even of many Christian commentators. SEVEN KEY PRINCIPLES OF RADICAL GENEROSITY--Packed with compelling case studies, research, and practical applications, *God and Money* outlines a simple framework and seven key principles for implementing radical generosity. No matter what your salary may be, Cortines and Baumer show how you can reap the rewards of radical generosity in your own life.

Although most of my 35+ years of professional experience have been in the business sector, I did spend four years as a National Director of Development for one of the country's largest faith based not-for-profits and have spent my entire life as a part of the Christian community. Thus, I went into this book with curiosity, but without significant intent that two young and rather inexperienced scholars could teach this old dog any new tricks. My how God humbles the proud! I was dead wrong! John and Greg use multiple origins of information as they share Biblical text, information from interviews, survey data, personal experience and new lessons learned to help the reader not only understand a historical context of giving, but also so that the reader can gain applicable lessons for consideration with their own life. From the earliest part of their writings in which they state, "It's not how much should we give, it's how much do we need to keep", they had my full attention and repeatedly challenged my earning, saving and philanthropic habits. I would highly recommend this book to anyone who has interest in understanding God's advice for a peace filled financial life. Additionally, for those who believe that mankind is responsible and has the means to help those wanting for food, clothing, shelter, education, medical attention and other basic needs. The principles of this book might just help you recognize the powerful impact that can be made by benevolent individuals motivated by faith and/or a common goodness or responsibility to help their fellow man. If the best practices of John and Greg's writings are put into action all of us would be in a better position to help others as well as find financial peace and freedom from the potential imprisonment of the never ending quest for more.

John and Greg are humble, sharp, and thorough. They tell their story about going to a class called "God and Money" while in the MBA program at Harvard business school. The class starting them on a journey through the Bible to discover what God has to say about money. Their journey brought

them to interview some really great people whose stories pepper the book. In the Harvard style they use case studies very well. The book is very well written, comprehensive and gives some of the best practical advice about the biblical understanding of money available today.

What a refreshing read! Of all the books I have read on stewardship, this one stood out from the rest. *God and Money* offers fresh, inspiring, scripture-based ideas that will challenge even the most generous reader. Rather than asking, "How much should I give?" this book suggests asking, "How much do I need to keep?" Another unique idea that resonated with me was their suggestion to become financially transparent (the "money taboo" is so real!) and to combine efforts with others in group-giving initiatives. I love how Greg and John took these "radical" ideas and made them extremely practical by humbly sharing their own personal finances and experiences. I also truly enjoyed reading the stories of real, radically generous people; they made these lofty goals actually seem attainable. This book digs much deeper and goes beyond what the typical stewardship book teaches, not only giving real-life examples of this counter-culture generosity but also providing practical frameworks to make this type of living a reality in my life. Thanks and kudos to these two young men for being bold and thinking outside the box, all the while maintaining Biblical truth and giving all the glory to God!

A terrific contribution to the discussion of wealth and what we do with it. Cortines and Baumer were on their way to being Rich Young Rulers when they discovered a road less traveled but far more profound. The book has some uneven spots, and while I definitely appreciated their brief survey and affirmations of non-Christian movements toward generosity, they also seemed to struggle with an urge to 'compete' against those, rather than simply find common cause. The gem in the book were the real-life case studies, and their bald transparency of their own financial situations. I also appreciated their Harvard-inspired "case study method," which was a breath of fresh air. A reader could get bogged down in the first chapter, or in the underwhelming formatting of the text, but don't succumb... there's treasure to be found here--and shared!

The next generation of Stewardship voices is here, and this is a gem of a starting point. Building on biblical principles laid out by Randy Alcorn, Ron Blue, Larry Burkett and others, John Cortines and Greg Baumer lay out probably the most practical, transparent, and biblically-based book on money management from a Christian standpoint I've come across in a long time. There's a ton of books on Christian stewardship out there, and while I'm not going to say this is the single best one I've ever

read, it is easily the most practical. John and Greg are transparent, authentic, and thorough in their discussion of earning, spending, giving, and saving and do a really nice job of helping a believer craft a plan of what generosity looks like in an affluent society like we live in. This is a book I'll be handing out to clients and friends for years to come.

This book provided a great overview of Biblical models of spending, saving, and giving, as well as practical suggestions for doing so, and real life examples of people already applying those principles. A far cry from "health and wealth" gospel or rigid rules for budgeting, it has definitely inspired me to be more organized in my finances to be able to maximize my financial stewardship.
