Hiking Montana (Falcon Guide)

Synopsis

For the hiker, Montana probably has more to offer than any other state. There are famous hiking areas such as Glacier National Park, the Bob Marshall, the Beartooth Plateau, and the Mission Mountains. Equally compelling are the dozens of hidden, almost unknown mountain ranges and prairie areas with outstanding scenery, fishing, climbing, and other rewards-places where you can hike all day without seeing another person. Hiking Montana, formerly The Hiker's Guide to Montana, covers 120 hikes of both well-known and uncelebrated mountain ranges as well as pristine prairie hiking areas. Also new is a hike description of Mann Gulch-which will help you unravel the mysteries of the 1949 wild fire that claimed the lives of thirteen men-and new sections on hiking with children, barrier-free trails for wheelchairs, and updated information on hiking in bear country. This guide contains accurate, up-to-date information, detailed maps, and eye-catching black-and-white photos. Whether you are looking for an easy family hike within minutes of an urban area or a multi-day backpack adventure in the wilderness, Hiking Montana is essential for planning your next outing in the Big Sky State.

Book Information

Series: Falcon Guide

Paperback: 323 pages

Publisher: Falcon Pr Pub Co; 5th edition (October 1995)

Language: English

ISBN-10: 1560443812

ISBN-13: 978-1560443810

Product Dimensions: 1 x 6 x 9.2 inches

Shipping Weight: 12.8 ounces

Average Customer Review: 4.0 out of 5 stars 2 customer reviews

Customer Reviews

I beat this book up!!! Drug it on more hiking trips than I can count. I eventually left it in a rented forest service cabin as a gift to the National Forest Service when I left Montana. I would ALWAYS recommend any Falcon guide if hiking is your "thing". d:-)

The guide book Hiking Montana was adequate for its intended use. The maps could have been better but the book does list the USGS maps needed for the particular in question. Not the best hiking guide I have ever used but by far not the worst either.
