Very thorough, very motivating, very informative, very well written. As a teacher, I highly recommend this book for every high school student who plans to attend college.

A great program! We're using this with a class to help our son to vastly improve his score... we'll worth the investment if it even garners only ONE scholarship!

I feel like I paid for an infomercial on purchasing the course - shame on me.

This is the most effective SAT test Preparation book I have ever encountered! It is so thorough but easy to understand and is full of strategies that anyone can learn quickly to beat the SAT test-makers at their own game! Learn the ways they try to trick you and get a perfect score!!-
