## Customer Reviews

This is a fun and interactive book. It is well made and has withstood our little one, who is rough on books. The size (7-1/2" square) is perfect for toddlers. Teddy is attached by a ribbon to the spine of the book. He is inserted into each scene (dinner table, bathtub, dad's lap, mom's hug and bed) and some have extra moveable elements (rubber duckie in the bathtub, toothbrush, teddy bear in bed). I must note that the bear in our book does not look like the one pictured on . The bear in the stock photo has a snout/muzzle while the one we received is flat. It is still cute but the one in the stock photo looks cuter.

Bought this book for a long car ride. We have a 2-1/2 year old and an 11 month old and they were both entertained for a decent amount of time with this. The youngest loved chewing on it and playing with the teddy bear. The oldest loved using the book as it was intended and putting the bear through its nightly activities. Great quiet book for church, restaurants, and car trips.

Cute but my kid was bored of it after 5 minutes. Bought it for a plane ride, hoping to keep my 20 month old occupied, and gave it away after I got to my destination. It wasn't even worth taking on the return trip as it just took up space and he showed almost no interest in it. After reading it once through, moving the bear etc. he played with it for maybe 2 minutes and then was done. I brought it out a few times at later dates before our return trip home and he never spent more than about 30 secs. to a minute looking at it before walking away and leaving it. Maybe he was too old for it?

My daughter loves this book. We've read it every night since she was a newborn. She's now 23 months and loves to move teddy from page to page and play with the "rubber duck" and "teddy bear." Each page is interactive and most of the items are attached to the book so they don't get lost. However, the red PJ's were not attached and was quickly lost. I did wash the entire book. I put it in a delicate laundry bag, washed it in cold water, and tumble dried low. It was fine...just a few threads came loose. If you're giving it as a gift, it comes in a clear, soft plastic case.

My one-year-old daughter has a lot of fun saying "good night" to "Teddy." She likes to try to put him in his seat at the dinner table, into the bathtub, into daddy's lap for a bedtime story, and into bed (with help). The only piece I don't even bother using is the little red set of PJs that come with the book. They're a pain to try to put on Teddy. Perhaps my daughter will want to do that when she's older and has better fine motor skills, but definitely not now.

Cute, baby likes it, but it is a bit big and bulky. Would have worked well in a smaller size that was more convenient to pack in a backpack or small suitcase. The little red outfit for the bear was lost by my kids the first week, as it doesn't stay attached to the bear and there is nowhere to "store" it.

Great toy, our 1 year old daughter loves it! We introduced it at about 8 months, and she showed great interest for it right away. Shortly thereafter, when asked "where's Teddy?", she would look through the book to find where we tucked it. And recently, after being shown how Teddy's father

brushes his teeth (there's a page for that where the arm with the toothbrush can be moved), she repeats this action for us every time she opens this page, which is quite cute and, perhaps, a good way to instill love for hygiene in a person. The bear is cute and soft, and is secured to the book with a lanyard so it doesn't get lost. The only pity is that the book is rather short and there's no part 2... We would have enjoyed "sequels" a lot, something like "Teddy goes to the forest" and some such...

Bought this for our baby who just turned one! At first she didn't seem too interested but as we started to discuss the actions teddy is doing during our bedtime story-time, she really has gotten into it and tries to fit bear into the pockets herself. She likes that bear does what she does when getting ready for bed! She even brings the toothbrush that is attached in the book to her mouth to mimick herself brushing her teeth! Too cute! Would highly recommend!
