### **Customer Reviews**

As a witch since 1970, I can tell you with certainty that this is NOT a book of spells. It's just a bunch of visualizations with some props, basically a lit candle and some poorly rhyming wishes. And be aware -- there is a world of difference between a mere wish and the invocation of magickal power. This book is just fake bs with a really cool cover, one of many such fakes now on the market. That is a shame, because real witchcraft is a beautiful and amazing thing. The book just isn't worth a dime.

I paid for a book with mediocre spells and very little actual information. I didn't feel like there was anything to be learned from it. Don't get me wrong, girls like me wouldn't mind having bigger breasts, but the spell wasn't very well thought out. None of them were, really. I don't think the author really understands that a lot of the oils required are expensive, and anyone with an IQ equal to their shoe size could come up with a spell that would not only work better, but also be way more affordable. The clear skin one was pretty good, but not everything involving beauty or love HAS to have an apple in it. There are many more examples I can think of, but then, I'd basically be writing my own book. Compared to books by Cunningham or Aoumiel or Ravenwolf, this is just.... meh.

#### I uninstalled it

Basic simple spells very adaptive to your skill level. I w would recommend to my pagan friends. Thank you very much

Found this to be long due for someone who wanted to follow her mother foot steps but she had passed away and I had no help. Its funny how people get weird when you try and ask questions...hate that..thank you

Not worth 8 bucks. You get 10 or so spells. It's not 200 pages long. You can finish it in literally 5 minutes

Don't like that I can't read the whole book even though I paid for it. Not enough spells for what is suppose to be 200 pages.

This is VERY short book with very few actual spells in it.
