Color Your Chakras: An Interactive Way To Understand The Energy Centers Of The Body

Synopsis

Color Your Chakras is a fun activity book for adults and children alike. The chakras are powerful energy centers located in your subtle body. Unknown to many people, these vortexes of life energy govern and regulate your physical body. According to the ancient Tantric and Vedic scriptures of India, there are 14 chakras—seven major ones along your spinal column, and seven others, most of which are located in your brain. Each chakra performs a specific function and is associated with discrete body parts and aspects of mind. Each chakra (or “wheel”) has a hub, where subtle energy conduits intersect; and spokes, which are radiations of subtle energy. Chakras are often likened to lotuses, and the radiations of energy are equated with lotus petals. The lotus petals on six of the seven major chakras comprise the entire Sanskrit alphabet, and the seventh major chakra vibrates all 50 letters of the Sanskrit alphabet. Each left-hand page in Color Your Chakras includes a description and explanation of each chakra or chakra deity. Each right-hand page is an appropriate drawing. The explanations include information about the drawings and the specific colors that are mentioned in the scriptures of ancient India.

It is a very nice coloring book!

ok

"Color Your Chakras" by Dr Susan Shumsky DD is a compendium of explanations which elucidate the major energy centers of the body. Our three part body consists of the gross physical body, the subtle body and the causal body. The gross physical body is what is seen by the eyes. The subtle body is visible through spiritual sight. The subtler bodies and sheaths surround and permeate the gross physical body. Five sheaths cover the luminous higher self. These sheaths are koshas, the physical sheath, the vital sheath, mental sheath, intellect and ego, as well as, the blissful sheath. Most of us see ourselves with reference to the physical body, thoughts and experiences. In reality, we are much more. In fact, we represent the sum total of an undifferentiated radiance of Brahman or pure consciousness. The Tree of Life from Kabbalah (Jewish mysticism) corresponds to the energy fields and chakras. The practice of yoga is about mastering these energy centers to facilitate health, wellness and a connection to the spiritual side of life and the light. Overall, this is a wonderful book which explains the rationale behind yoga and the various energy centers of the human body. Our health care system would benefit tremendously by having an understanding and honest application

of yoga practiced in an integrative fashion with the conventional modalities. Immortality Commons

Dr. Shumsky helps people take command of their lives in positive ways through various forms of meditation, prayer, affirmation, and intuition, and offers a very complete discussion of the energy centers known as Chakras, which are the universal life force that oversee our physical and energy life. READ THIS BOOK to understand that chakras are energy centers in your subtle body that control pranic circulation throughout your system that govern sense perception, mental activity, higher awareness, and spiritual awakening. Share a greater understanding of the nature of your physical and multidimensional bodies and discover your true nature, who you really are- an unbounded radiance of Brahman- pure consciousness. Dr. Shumsky recommends coloring in parts of the book to achieve greater health and vitality by enlivening your chakras!

Susan has done it again. This time she uses her knowledge and combines it with art to make it an interesting and fun learning experience. This adult coloring book is suitable for all ages 15 and above or maybe younger if your child is into learning about themselves. The coloring options are fantastic in that you can create some really beautiful pictures. I always learn something new from Susan and this is no exception. The price is really good for an adult coloring book and the quality is certainly there.

The designs are beautiful, but I'm confused by her color selection for each chakra. Muladhara and Manipura are reversed, as are Anahata and Sahasrara. I don't know if these colors are the original, and that what I have learned is a Westernization of the teachings or what. I didn't know the Hindu deities associated with each chakra, or whether these deities are Vedic in nature. I thought I knew most of the Hindu pantheon, but I didn't recognize most of these.

Nice coloring book with added info

Very good book, I love the drawings!!
