Homosexuality (Paperback Edition) (Opposing Viewpoints)

Synopsis

Authors in this anthology debate what causes homosexuality, whether society should encourage acceptance of homosexuality, whether homosexuals can change their sexual orientation, and whether society should legally sanction gay relationships. --This text refers to the Hardcover edition.

Customer Reviews

Grade 10 Up "This well-researched, unbiased anthology includes a variety of provocative articles and essays that are sure to invite criticism, discussion, and debate. The selections are organized into four long chapters, including "Should Society Encourage Increased Acceptance of Homosexuality?" and "Is Homosexuality Immoral?" The contents, index, and bibliography are clear, helpful, and easy to follow, and there is a lengthy, annotated list of "Organizations to Contact" for additional information. A few cartoons are included. A noteworthy achievement for serious students." --Robert Gray, East Central Regional Library, Cambridge, MN Copyright © Reed Business Information, a division of Reed Elsevier Inc. "Long-standing series about controversial contemporary issues continue(s) to turn out exceptional titles. Greenhaven's Opposing Viewpoints presents multiple perspectives on hot topics such as abortion, the death penalty, and censorship through excerpts from primary materials ranging from speeches to cartoons." -- Booklist (October 2001) (Booklist 20011015)"The format and approach

are identical to other titles in the series; both sides of a particular issue are explored in depth. Each essay is prefaced by questions that will help students focus their reading and each chapter concludes with suggestions for further reading and research. Students will find the articles helpful in examining these controversial and often emotional issues." -- School Library Journal (August 2002) (School Library Journal 20020801)"As usual for books in this series, there are plenty of follow-up sources for students to pursue." -- Booklist (June 2002) (Booklist 20020615)"The language is understandable but not simplistic, the pieces are clearly titled for easy identification, and a few cartoons and charts break up the dense text. This unbiased collection is a welcome resource for researchers and debaters." -- School Library Journal (June 2002) (School Library Journal 20020601)"Written by educators, scientists, journalists, doctors, veterinarians, members of the clergy and advocates. This excellent volume will elicit group discussion and help to develop critical thinking and analysis of sensitive issues." -- School Library Journal (May 2002) (School Library Journal 20020501)"This supplemental reader is perfect for getting students involved in discussion. The resulting debates are sure to reinforce any primary readings and will breathe life into any standard lecture oriented course. This supplement is a useful tool for instructors to get students involved." -- Crime and Justice International (May 2002) (UNKNOWN 20020501)"As always in the Opposing Viewpoints series, there are voices from many sides of the debate." -- Booklist (April 2002) (Booklist 20020415)"Most present clear, fact-supported points that readers will find valuable for speeches and reports. Editorial cartoons, anecdotes, and statistics break up the essays, make reading easier. This is a well-balanced approach to the issues, argued with studied analysis rather than blind emotion." -- Booklist (April 2002) (Booklist 20020401)"This series is invaluable for preparing students for debates, classes, or research assignments. Opposing Viewpoints books help prepare high school students for critical thinking and make them aware of issues that affect society today. Recommended." -- The Book Report (March-April 2002) (Book Report 20020401)"Most useful in schools with religion and/or philosophy courses, but should also appeal to general readers." -- School Library Journal (April 2002) (School Library Journal 20020401)"Well-balanced collection of essays. Sometimes complementary, sometimes contradictory, the many views clearly articulated here make this volume an excellent starting place for any thoughtful discussion." -- Booklist (February 2002) (Booklist 20020215)"This Opposing Viewpoints selection uses essays that swing wildly toward extremes to cover the topic. The writing becomes even more heated in the following sections...The shocking arguments and sometimes-blatant absurdity makes nearly all the essays compelling reading, with students needing only a glimpse at an article's title to determine tone and subjectivity of the author. Most essays are short, get right to the core of their arguments,

and blast readers with examples that fit the emotional topic." -- Booklist (September 2001) (Booklist 20010915) --This text refers to the Hardcover edition.

I disagreed with a lot of the book, but then again, that's the point of the book.
