Catherine Bruzzone has more than twenty years experience teaching languages to children and developing innovative language-learning programs.

Really great and simple for beginners! I love how they is more than one voice on the cd's.

GREAT LEARNING TOOL

I have been researching the web for months trying to find a great program to assist me with teaching my children Spanish. We recently purchased this program and I must say that it leaves more to be desired. The audio quality isn't good and doing a program like this with just audio and no visual component is unrealistic for children. We are keeping the program and it will be used along with other tools but alone, it falls flat. My 2 year old daughter did listen to the program for a few minutes but again without the visual piece it will be a struggle.

I agree with the previous reviewer that the quality of the CD is not the best-- the children's voice do sound far away. And also, the CD track is not numbered on the page or the particular exercise. You'll have to fast forward or rewind to get to a particular spot. Another issue with this book is that the workbook is not great. It doesn't really go with each lesson of the textbook. Despite the problems I mentioned above, this is a really fun Spanish curriculum for kids. My daughter (age 5) is picking up tons of Spanish vocabulary from this curriculum. And she absolute loves the songs included on the CD. I would definitely recommend this curriculum to anyone trying to teach their kids Spanish at home.

This is a great little spanish program for kids. The book is colorful with lots of pictures and games. The songs are on the cheesy side, but my kids like it. I wouldn't use it for kids much older than 10 though.
