# A Nation Divided: The Long Road To The Civil War

## Synopsis

By the middle of the 1800s, the United States had become two separate societies. The North and the South were divided by vast economic, educational, and cultural differences. There was widespread misunderstanding and even hatred between the two regions of the country. But it was one specific issue—slavery—that would erupt in disaster.

## Customer Reviews

These objective and readable books discuss the causes, battles, and politics of the Civil War and Reconstruction. Authors incorporate primary-source materials into the texts, and a limited number of sidebars add additional information or longer primary-source material. The series is made simple; School Library Journal These slim volumes succinctly present events in the war between the states. The major battles describe leaders, strategy, new technology used, and the outcome. Each book includes text boxes with longer quotations derived from journals, newspapers, and speeches. Noted historian and award-winning author Don Nardo has written many books for young people about American history. Nardo lives with his wife, Christine, in Massachusetts.

Interesting explanation of 1860 mindset.

Grade schoolers and junior high school students will find this to be an excellent introduction to the causes of the Civil War, including the leading cause- slavery and the attempt by some politicians and others to extend it into the territories and newly forming states. The organization of the facts and the writing by historian Don Nardo are first rate and the pictures and layout by the publisher are very nicely done. I recomend the book highly.
