Mountain Home Air Force Base (ID) (Images Of America)

Synopsis

Mountain Home Air Force Base began inauspiciously as a small effort to support and train B-24 combat aircrews for the rigors of World War II. Today it represents the only active-duty air force installation in the heart of Idaho. From its shadowy rebirth in the late 1940s to its buildup under Strategic Air Command, the base housed some of the cold war's most important assets in the battle against communism. Mountain Home's most recent and longest-serving tenant is the world-famous 366th Fighter Wing - Gunfighters. Under the stewardship of the Gunfighters, Mountain Home has been transformed from a remote, dusty World War II airstrip to one of the air force's premier training facilities, readying aircrews and their support agencies for the demands of modern warfare.

Yancy D. Mailes, a recently retired air force historian, has penned numerous articles on military aviation. In his 20 years of service, he has borne witness to revolutionary changes in aerospace operations and has exhaustively documented these events. Most recently, he deployed to Iraq where he chronicled the history of the renowned 332nd Air Expeditionary Wing, the legendary Tuskegee Airmen. In this volume, Mailes has gathered more than 200 photographs from the Mountain Home Air Force Base archives to illustrate over 60 years of airpower history.

Lots of information but quite limited info on all the people who had served there over the years. The

book was in excellent condition and arrived promptly.

Was a good choice if you were stationed there. Some very interesting pictures that I enjoyed.....if your interest is AF bases this will be a good choice for a little known base...

Excellent- I just wish it had more pictures of when I was there. I remember walking across the runway to get to work.
