Customer Reviews

Essential for Zep fans who are musicians. Many are clearly close if not exact to the recordings. I play with a tribute band, and these have helped learn what's recorded. A good resource to check out.

a plus

I'm slowly going through this book. I'm sure you know the first song I went for was "Stairway to Heaven". After spending about 30 minutes of working with it, I had my piano sounding very much like the real song. Music! It's the universal language, and it soothes the savage beasts.

Good intermediate piano arrangements for some complex songs not originally made for piano. Worth the money.

just what I was looking for .sheet music for "c" instruments

Very good product

It has many of my favorite Zeppelin songs.

This was a great book for me, teaching myself completely with no private lessons at all. I found it wonderful to be able to play such classics!
