Draconomicon: History, Magick And Traditions Of Dragons, Druids And The Pheryllt

Synopsis

20TH ANNIVERSARY EDITION !!! The ultimate "Book of the Dragon" for magick-users and fantasy enthusiasts alike. This completely revised and expanded edition of the underground cult classic "Draconomicon" offers powerful teachings and lore of 'dragon magick' and its legacy. Discovering the wisdom & power of the dragon has never been easier. Come and initiate yourself to the Great Mysteries and venture on a journey beginning in the primordial depths of the primeval abyss of the "Great Universal Dragon" and following through millennium of ageless mysteries into the present age... and the future! Whether looking to incorporate the "dragon" into your personal spiritual or magical tradition or even simply as a unique and remarkable treasury of esoteric knowledge as revealed by a leading member of the occult underground, Joshua Free, the "Draconomicon" is the perfect addition to your literary collection and everyday life. The Dragon Legacy is an important part of the history and traditions of cultural magic and the development of human civilization as a whole. Nothing is separate. And this is one of the messages we learn from the Dragon. That everything is connected together and we cannot see things in exclusion to other things if we are to see things for how they truly are â “ another gift of the Dragon. Hidden in the depths of the Dragon lair is a legacy of bloodlines, secret pacts and cults, the symbolism of an entire universe and the means by which it can be controlled. This is perhaps one of the best kept secrets or grand conspiracies in the history of occultism. It is the undefiled, raw and primordial truth of things â “ just as we would expect the Druids to understand them. With understanding comes wisdom.

Customer Reviews

Joshua Free is the founder of Mardukite Research Organization (2008) and the prolific author of many works including Sumerian Religion, The Sorcerer's Handbook of Merlyn Stone, Necronomicon Anunnaki Bible, Vampyre's Bible, Cybernomicon and many others. In the 1990's he was the youngest initiate of the Order of Bards, Ovates and Druids in England until he left to independently pursue the origins of the Celtic Druids - resulting in the "Book of Elven-Faerie". Although best known for his work on Sumerians, the Anunnaki and Babylonian Tradition for the "Mardukites", his work on the Dragon Legacy and modern Pheryllt Druid tradition is also paramount. His writing has even been used to introduce the third volume from Douglas Monroe, "The Deepteachings of Merlyn" (published in 2011).

To be honest this wasn't quite what I have hoped it would be. While it does contain a considerable amount of historical and cultural information, it doesn't contain anywhere near as much information on magical practices as I had hoped. The book still does contain useful information, although, as far as things in the nature of magical work most of what it contains can be found elsewhere, but there is some information that is unique to the work. All in all there is enough information for the book to be of some value, but not near enough for it to be a stand alone work and unless a person has knowledge and skill already the book will be of little use as far as things magical. it gets three stars because of the historical and cultural information and for that alone it is something worth having, but if you want a source for in depth magical information, one should add other works along with it.
