Customer Reviews

Book by Kazuya Kudo

This book, is so good, it concludes all loose plot points and ties from volume 2 this series has become one of my favorite series it has something for EVERYBODY. I wish they made manga like this a lot more. I wasn't around when this manga was being produced but I still find 90's art to be amazing and unique, I'm dragging on but even if you don't like "old" art style you should still give this series a try.

I am very pleased to finally get this collection. I had many of the Eclipse single issues, but not the entire story. Good to know this book can be studied among Ryoichi Ikegami's other fine works.

MAI, Psychic girl is truly one of the classic mangas that has somehow been forgotten in the US mainstreaming of Japanese manga and anime. Released in the late 80s/early 90s Mai was one of the first hugely successful B&W manga comic books. The story itself is a rather simple but entertaining take. Mai is a young school girl who has started developing psychic abilities. She is the target of a sinister secret society who hope to harness her power (and others like her) to obtain world domination. Much like Otomo's AKIRA, Mai encounters other people who possess similar

powers to her and she must deal them. The artwork is by famous manga artist Ryoichi Ikegami who is best known for his work on Crying Freeman. The style is not your typical cutesy sailor moon/dragon ball Z manga art, opting for a more realistic, sometimes western comic book approach to storytelling. Overall MAI is a true classic a a fantastic story. One worth reading!

This book is about Mai, a girl who happens to be a very powerful psychokinetic. She doesn't think her abilities are a very big deal, although she is careful to hide them from others. Still, she uses them mainly to keep boredom at bay. Unfortunately, a secret organization is after her and other psychokinetics, so that they can use her for military purposes. Her dad, a man skilled at martial arts, as other ideas, however, and does his best to keep her safe. The artwork in this book was unexpected for me, much more realistic than anything I've seen in other manga works. However, it wasn't consistently good artwork, and some of the characters tended to look odd, as another reviewer noted. The story itself was very riveting, and I couldn't put it down. I can't wait to read more about Mai, and I'm looking forward to the next volume.

This was a pretty gripping story. One of those things that we all wish for, psychic powers, are proved to be not such a good thing. This conspiracy sort of story is pretty entertaining, but some of the scenes were just thrown in for the solo purpose of having a nude scene. The artwork is pretty good and much more realistic than most animes. Mai's friends, though, are some of the funniest-looking characters that I have ever seen, and some of the other psychic children aren't exactly poster children. Don't let those stray you away, it's still a pretty good read. It's a bit gory, but it won't give you nightmares or anything. I'd recommend it to fans of Evangelion or Magic Knight Rayearth or older Sailor Moon fans. If you can take a little blood, go for it!

This tells the story of Mai, a Japanese school girl who becomes the target of vague organizations of powerful conspirators who want to use her for her psychic powers. The art is interesting, and often quite attractive, although a bit of gratuitous soft core jailbait porn is occasionally thrown in. While the quality of the artwork is generally high, I was less impressed than some reviewers by the art in the fighting scenes, of which there are many; it was often difficult to follow what was happening. There are some elements of the art also which seem to make no sense; Mai is described as having inherited her powers through her mother, who was the latest in a line of psychics going back for centuries and linked to a particular Japanese temple and village, yet the mother, when she is shown, has entirely Caucasian features. The story takes off a bit slowly, and the characters aren't

entirely developed. This volume is the first of three, although the other two, strangely enough, don't seem to be on yet. Unfortunately, the sequels aren't as good as this one. The characters change suddenly, Mai and her enemies acquire new powers without warning when it forwards the plot, and the ultimate evil plan of Mai's enemies, when it is revealed, is utterly unbelievable. I would give this volume on its own a mild recommendation, but it isn't really complete on its own and I can't recommend the full set.

I had read other manga before, but this one totally blows everything else I have ever read away. At first, the main character Mai, is a bit reluctant to accept her destiny as protectress of the earth, but when she starts using her powers to battle, it becomes very gripping and hard to put down. With the exception of some nude scenes that had no place in this manga, I found this book to be extremely entertaining and nonoffensive.

This book was amazing. It really got me into most anime and manga things, and it's easy to see why. Gripping storyline, beautiful art...I really felt involved. Kudo and Ikegami are much applauded. Oh by the way, mail me if you find any other comparable manga things, please.
