## Customer Reviews

Text only, does not include MyEconLab access.

good and cheap

I'm not usually a fan of Pearson books, because I have found a lot of mistakes in them. I bought it anyway since it was required for the class. It's not my favorite, but it's not as bad (or as expensive) as the last Pearson book I had.

There are a lot of books out there that try to imitate this book by using the photograph and writing that it is actually the international edition in the description. This, thankfully, isn't one of those books, it's exactly as the picture!

Bought as a gift, individual loves it.

Good book.
