Author Bio About BISYS The BISYS Group, Inc. (NYSE: BSG), headquartered in New York City,

provides solutions that enable insurance companies, investment firms, and banks to expand their businesses and run their operations more profitably. BISYS currently supports more than 22,000 domestic and international financial institutions and corporate clients through several business units.

BISYS Education Services is the nation's premier provider of licensing preparation, continuing education, and professional development courses for life, health, long-term care, annuity, and property-casualty insurance products as well as investments. This unit complements its education services with a comprehensive compliance management solution that supports insurance and investment firms and professionals with a sophisticated suite of services that automate the entire licensing process. BISYS Insurance Services is the nation's largest independent distributor of life insurance and provider of support services required to sell traditional and variable life and annuity products as well as long-term care and disability insurance. This unit is also the nation's second largest independent wholesale distributor of commercial property/casualty insurance. BISYS Investment Services group provides administration and distribution services for approximately 380 clients, representing more than 2,200 mutual funds, hedge funds, private equity funds, and other alternative investment products, with approximately \$750 billion in assets under administration. It also provides retirement services to more than 18,000 companies in partnership with 40 of the nation's leading banks and investment management companies and offers analytical research and competitive information through its Financial Research Corporation (FRC) subsidiary. BISYS's Information Services group supports approximately 1,450 banks, insurance companies, and corporations with industry-leading information processing and imaging solutions, turnkey asset retention solutions, and specialized corporate banking solutions. Additional information is available at <http://www.bisys.com>. Eric Alan Anderson is Director of Insurance Education for BISYS Education Services, based in Indianapolis, Indiana. He has almost 25 years of experience creating training and test preparation materials for the financial services industry. In addition to authoring 17 insurance training texts and editing 8 others, he has written newsletters and magazine articles and has developed materials for audio cassette/workbook, videotape, computer disk, and the Web. He has also taught basic English skills courses at the college level and has made presentations to national conferences of insurance associations. Matt McClure is Editor of Life/Health Products for BISYS Education Services. He maintains 42 titles on BISYS Education Services's course list, including the Life/Health Concepts license preparation text and its supplementary review materials. Formerly a freelance writer and editor, his work has appeared in numerous nationally published books and magazines. He is a licensed life and health insurance producer. Richard A. Morin, CIC, is a contract author based in Los Angeles, California. He has 35

years of experience writing and training on a broad range of subjects for the financial services industry. For several years he was an editor for a major insurance training publisher, and he has also worked as an insurance underwriter, a rating supervisor, and a licensed insurance and mutual fund sales representative. © Copyright Pearson Education. This book is the only reason I passed the life and health test. My company had me using License Coach which is horrible! I completed the online course and then took the parasitic tests in here until I felt comfortable. I would defiantly recommend this book. And I use the Kindle version which I liked the convenience of being able to open on almost any device.

I thought it was a recent edition, but the copy write date is 2004, although it was printed in 2014. IT DOES NOT CONTAIN ANYTHING ON THE AFFORDABLE CARE ACT, which if you've taken the classes you'd know is a pretty bid deal when it comes to health insurance. The disk comes with some half baked study program with REVIEW MODE only, and you have to go through extra means to get full content. I kinda wish i'd just gotten the torrent and printed off the e-book myself. Doesn't cover state information either. In review: No state specific information, no Obama Care/Affordable Care Act (ACA) and copy write date is 2004, which is 11 years old and anything older than 10 years old cannot be a good credible source of information. If you're like me and purchased that shotty AYOP einsurance training.com all lines online class(es) and found that you need a study guide or a book to go with it, this is not for you, and you'll probably be better off just buying ink, paper (3 hole punch), and a binder and just copy-paste your lessons and printing it out and study that way. I hope I helped you guys and remember to check the copy write date and or make sure they contain the ACA info before purchase.

I tried a few different curriculum for learning this material but this book is the absolute best bang for your buck anywhere! I paid \$99 bucks for what was supposedly interactive curriculum for use on a PC. It was basically just text scrolling on a screen! Dreadful! This book is written in far more understandable language and the price makes it a steal!

Bought this for my son & it helped him out immensely. He said that it broke it down much better than the class he took, which made the test easier. He passed with only two mistakes, so I'm convinced. Great buy!

Kind of long for the title "Exam Cram" otherwise good information. I'm more of a short paragraph/bullet point reader so if that's you I wouldn't necessarily recommend this.

This is a great cram for your test. It helped me pass mine! I do have to say that this isn't State Specific, so make sure that you're also pulling your state specific laws from the Department of Insurance website in your state.

Too much info in general, but covers what you need to get a life/health license in ways that are applicable to pretty much any state. Just be prepared to skim some of the details. The practice questions were pretty good. A little better organization of the material would have brought this up to a 5-star review. FYI -- I used this to study for the Arizona Life & Health producers insurance license exam and passed on my first attempt. I will say that the exam question format in the book is not quite as challenging as it is on the actual exam, so see if you can find some other practice questions too to get a feel.

This book gives so much unnecessary information that makes it difficult to understand I kind of regret buying it. I wish there was a better and updated book but it seems this is the best one I could find. The book gives too many detail and focus on a single term instead of just learning the fundamentals, its ok but its also very frustrating because it waste so much time explaining unnecessary information. Also the book does not give examples so if you get lost you have to assume a scenario and pretend that's what its talking about. Honestly just take a class online I wouldn't recommend this book for simple learners.
