World Textiles: A Concise History (World Of Art)

Synopsis

The history of textiles, more than that of any other artifact, is the history of human ingenuity. From the earliest needles of 25,000 years ago to techno textiles used in Space Shuttle parachutes today, textiles have been fundamental to human existence and achievements, and have informed developments in other areas from agriculture to metallurgy. Textiles are global commodities, common to every culture and for a long time the motivation for trade, the exchange of ideas, and sometimes even conflict. Silks from China, carpets from Persia, ikats from Indonesia, cottons from India, fine linens from Flanders--each of these has helped to shape the modern world. This groundbreaking book surveys, from prehistory to the early twenty-first century, how textiles are made, what they are made from, how they function in society, the ways in which they are valued and given meaning, and the messages they contain. The author shows the intricate relationships between different cultures' textile traditions and demonstrates the significance of the materials we all take for granted in our everyday lives. 204 illustrations, 100 in color

Book Information

Series: World of Art

Paperback: 224 pages

Publisher: Thames & Hudson (June 2003)

Customer Reviews

â œGroundbreaking....An invaluable introduction to this vast and fascinating subject.â • - New England Antiques Journal

Mary Schoeser is a textile historian and curator who has advised English Heritage, the National

Trust, Liberty of London, and the Metropolitan Museum of Art. She is Senior Research Fellow at the University of the Arts, London.

I think this book would be in the library of anyone who collects or designs textiles. Even without the color photos of each type of textile, the information on technique and history would mark it as a frequently used reference.

By adding this book to my library, my knowledge and understanding of the development of textiles has been expanded. And I have some interesting odd ball facts I can throw at friends.

Daughter loved it.

The shipping was super fast, the book was in pristine condition, but best of all, the info in the book was exactly what I needed. It was not a fluffy book about textiles, but a thoroughly researched and well written book. I'll refer to this one constantly. Overall, a fantastic transaction. Thanks much!

great book

Great condition! Very pleased!
