# Creation And Evolution: Clear Reasons To Doubt Darwinian Evolution (pamphlet)

## Synopsis

Creation and Evolution pamphlet shows how scientific findings about paleontology, genetics, biochemistry, astrophysics and mathematics cannot be explained by Darwinian Evolution. For example, evolutionary theory says we ought to be able to expect human life to form from amino acids if given enough time, say 5 billion years. Modern mathematicians say that this is highly unlikely, even given 100 billion years, far longer than evolutionists believe the Earth has been in existence. Topical index: adaption, amino acids, astronomy, big bang theory, Cambrian explosion, chemical origins, Creation Research, creationism, Darwin, dating methods, evolutionary biology, fossil record, geology, heredity, intermediate fossil links, mathematical probabilities, molecular evolution, old earth theory, Science and Creation, species emergence, study of fossils, The Creation Hypothesis, The Genesis Flood, the missing link, theory of evolution, transitional life forms, young earth theory, zoology.

## Book Information

Series: Clear Reasons to Doubt Darwinian Evolution

Pamphlet: 12 pages

Publisher: Rose Publishing (CA) (November 1, 1999)

Language: English

ISBN-10: 1890947016

ISBN-13: 978-1890947019

Product Dimensions: 8.7 x 6.3 x 0.4 inches

Shipping Weight: 10.2 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 2 customer reviews

Best Sellers Rank: #1,059,806 in Books (See Top 100 in Books) #22 in Books > Christian Books & Bibles > Churches & Church Leadership > Church Materials #201610 in Books > Religion & Spirituality

## Customer Reviews

Another extremely well written and very helpful resource from Rose Publishing. The Creation and Evolution pamphlet uses the following categories to lead the reader through a discussion of the contrasts between classic Darwinism, modern evolutionary science and the Biblical position of creation science: Astronomy - What's the big bang theory? What do we actually see in space? What does a young earth creationist believe? Geology - What do we see in the crust? Should we use fossils to date strata or strata to date fossils? Does the Hebrew word yom, in the Genesis account,

always mean a literal 24hr day? Paleontology - What does the fossil record actually show us? Do we see any transitional forms? How did Darwin actually feel about the content of the fossil records? Genetics - Do we see strong evidence of change from one species to another? What is the difference between micro and macro evolution? What about gene mutations? What direction (progress or regress?) do typical mutations travel? Biochemistry - What contribution does the discovery of DNA make to evolutionary science? Do we see species change at the molecular level? How do we explain such complex organs like the human eyeball where every part is essential? What is Behe's mousetrap? Mathematics - Given enough time, will chemicals change into life forms? Is 100billion years long enough for a single simple cell to form on earth? What is the mathematical probability of assembling amino acids (the building blocks of proteins) into a functional protein, randomly? "An honest man, armed with all the knowledge available to us now, could only state that in some sense, the origin of life appears at the moment to be almost a miracle, so many are the conditions which would have been satisfied to get it going." -Francis Crick "Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear." -Hebrews 11:3 "You are worthy, O Lord, to receive glory and honor and power: for you have created all things, and for your pleasure they are and were created." -Revelation 4:11 This is a great little pamphlet full of solid and accessible information to help you navigate through the creation / evolution discussion and debate. \_\_\_\_\_ I was provided a free copy of this pamphlet from Rose Publishing for a free, unbiased, honest review.

Pamphlet: Creation and Evolution Clear Reasons to Doubt Darwinian Evolution Creation and Evolution pamphlet shows how scientific findings about paleontology, genetics, biochemistry, astrophysics and mathematics cannot be explained by Darwinian Evolution. Pamphlet has 12 panels and fits inside a Bible cover 8.5" x 5.5" and unfolds to 33" long
