## Customer Reviews

I have read both of these books and I'm drawn to talking about the second volume first. The first volume is great. It's wonderful and I will be putting a review on the first one as well. But I really felt like typing this feeling while it was still with me. To put it in a short way: the second volume caught me off guard. The series paints an accurate portrayal of bdsm and how new or veteran people reflect within it. The thoughts and feelings of Alley and Lisa strike close to me and feels like I'm reading something that resembles my life. The excitement and the fear of meeting someone new and not sure if you know what you want or even if it's real. The ending hit way too close to me and I actually teared up. I had to put the story down for a bit. Short version: This is a really highly highly highly great story series. If you're interested in bondage or bdsm and an honest to God! love story that is grounded in reality, read this (that was a mouth full). Hell even if bdsm isn't your thing, just read this. Sunstone is great modern love story. It has a lot truth and honesty.

Volume 2 of Sunstone cuts back on the sex and instead focuses on the characters. A number of new people are introduced, and we also learn a good deal more about Ally. At the beginning of this volume, Lisa gets a visit from Aunt Flo, and has to cancel her planned weekend with Ally. Instead the two end up talking about how Ally and Alan first got involved. From there, they go to a BDSM club and meet some new people, all old friends of Alan. I thought the relationship in this volume was quite well written, showing how young lovers can end up overdoing something with skill.

Second volume for me...Been following Stjepan since he was first posting on Deviantart. This is a superb series and though it is "adult" in nature it is much more than a "dirty comic"...The characters are well-drawn and quite human and the interpersonal dramas would be good reading even without the great drawing of Mr. Sejjic. Highly recommended.

I love this series. The characters are very well developed, instantly grab your attention and hold on. The subject matter is handled in a thoughtful and respectful manner. Alternative lifestyles are presented in a clear way, and examined by several different points of view by different characters within the book. If this were my lifestyle, this is how I would hope the people in my microcosm would approach life. The relationships are portrayed in very a very real manner, with awkwardness and fights getting as much attention as sexiness and romanticism. The respect paid to people of all different walks of life is just tremendous. I know I repeated that point, but I did it on purpose: the writers and artists should be commended for this portrayal.

One of the best comics I've read. Came recommended by a friend and was not disappointed. Having checked the deviant art page, you can see where the author did things like further enhance particular facial expressions between the drafts and the polished final, and the whole comic shows several nice touches like that and general high quality craftsmanship. The characters have dimension and heft, the supporting characters have depth, and without spoiling anything, from the deviant art posts can mention that the series builds in later volumes to a very nice dramatic tension. Series is so good phrases like "say sunstone and I win the game" and "chasing the curve" have worked their way into the casual meme everyday conversation of people I know.

I saw the comic online first and fell in love. The price I paid for the print edition is way below what I thought they'd charge! This is a very beautiful series that explores sensitive subject matter.

I absolutely love this series. They're beautifully illustrated and feature two gorgeous and multi-faceted interesting characters. Even if you're not into BDSM in real life, it's still a sexy, fun, and exciting read. Stjepan really has a knack for capturing the essence of trust in a relationship and illustrating it in a delightfully sexy and fun way. The dialogue is absolutely perfect and I found myself laughing along at their (mis) adventures and cheering on their blossoming relationship.

Stjepan is an artistic god. His work is so damn good and the story in these books is just as good.
