Pastoral Care In Hospitals: Second Edition

Synopsis

Bringing comfort and concern to the bedside of the sick or dying is a challenge for lay people and clergy alike. In this practical guide, Neville Kirkwood shares his wisdom “gleaned from some twenty years of experience as a hospital chaplain” on the art of hospital visitation. This classic handbook is now updated, with an all-new section addressing best practices for hospital chaplains. Pastoral Care in Hospitals, with additional sections addressed to clergy and trained lay pastoral workers, as well as ordinary lay people who simply want to visit their fellow-parishioners, shows visitors ways to make the encounter meaningful and enriching to the patient. Kirkwood guides readers through the minefield of hospital visits “from false heartiness to too much talking” and offers a theology of visitation that can guide both professionals and laity in their ministry. A variety of exercises and a section of prayers for specific circumstances make this a must-have resource for all who work with the sick and dying, and an excellent text for course work.

Book Information

Paperback: 320 pages

Customer Reviews

... comprehensive, basic ... for anyone preparing parish hospital visitors or even eucharistic ministers for hospital visitation... balanced... --The Quarterly for Parish Ministers... must-have resource for all who work with the sick and dying. --South Dakota Church News, 03/15/1999
In non-technical language, Kirkwood helps lay and clergy visitors understand what actions, words, and practices may be helpful versus harmful. --Pastoral Life

Hospital visitation is never easy. Bringing comfort and concern to the bedside of someone who is sick or dying is difficult for lay people and clergy alike. In this practical guide, based on many years of experience as a hospital chaplain, Neville Kirkwood shares his wisdom about the art of visitation. In non-technical language, Kirkwood helps lay and clergy visitors understand what actions, words, and practices may be helpful versus harmful. He guides readers through the temptations visitors face-attempts to problem-solve, to talk too much, to be too personal or not personal enough-and provides them with a theology of visitation that can guide their efforts to help patients and friends. A variety of exercises and a section of prayers for very specific circumstances one might encounter in the hospital make this a must-have resource for all who work with the sick and dying. Dr. Neville Kirkwood is an author, lecturer, and preacher and has served in cross-cultural mission in India for seventeen years and as a hospital chaplain in Australia for eighteen years. He earned his Doctorate of Ministry at the San Francisco Theological Seminary in San Anselmo, California, and has served in many capacities, including President, of the Australian College of Chaplains. --This text refers to an alternate Paperback edition.

Comprehensive and easy to follow. Provides good solid guidance on conducting yourself as a chaplain or caregiver within the hospital setting. This book was recommended to me when I applied to be a volunteer chaplain at one of the local hospitals. It provides guidance on how to deal with people of all faiths and those who do not believe in any religion.

I am in training to become a certified Hospital Chaplain. Because of the title I thought it would give me insights and ways others have properly deal with sensitive issues. However there was little I found instructive.

Great book, would have been good to have this information much earlier in my career. Would be a benefit to anyone who is, or has the desire, to minister in the hospital.

highly recommend for anyone in spiritual care

I received the book in excellent condition

Great book for chaplains. Well written.

Book was recommended to Associate Pastor. She liked the book since she visits the sick in a number of settings often.

I had already borrowed this book and thought it was a great guide to pastoral care in hospitals. I decided I wanted my own copy.
