When The Sun Shines On Antarctica: And Other Poems About The Frozen Continent

Synopsis

Icebergs brighten as the sky peels itself of darkness and stretches awake. . . . Welcome, Summer. We've been waiting for you. Experience summer like you've never experienced it before by traveling to Antarctica with evocative poetry. The sun rises, ice melts, grass grows, seals squabble, whales sing, and young penguins slide, glide, and belly flop. Whimsical illustrations and additional facts accompany each poem to provide further details about the animals and the environment at the bottom of the world.

Irene Latham is a Birmingham poet and novelist who writes heart-touching tales of unexpected adventure. She has also authored two award-winning poetry collections, *What Came Before* and *The Color of Lost Rooms*.

Beautiful book!

What a wonderful poetry collection! Each poem is spare and lush at the same time, probably a lot like Antarctica, if you look at it closely. The prose sidebars gave me lots of cool info, and the poems

themselves took me right into the heart of summer at the bottom of the world. Gorgeous illustrations explore the palette of Antarctica and show that it's anything but just a world of white.

Science poetry with gorgeous, adorable art! Biology and language interact beautifully and playfully in this picture book. I thoroughly enjoyed my brief Antarctic summer.

Irene brings to life creatures from the frozen continent and also provides facts about them.
