Soundscapes: Exploring Music In A Changing World, 2nd Edition

Synopsis

The innovative music textbook, available here as a book without audio CDs. Soundscapes breaks new ground by organizing the study of world music according to its cultural significance, rather than by geography alone. The Second Edition provides even better coverage of the cultures surrounding the music and focuses more closely on honing students' listening skills. The Second Edition also features a striking new design, new chapter organization, and expanded listening guides. This edition contains only the Soundscapes textbook. The textbook with the CDs (ISBN 978-0-393-16713-9), and the CDs alone (ISBN 978-0-393-10684-8) are each available separately.

Book Information

Paperback: 471 pages

Publisher: W. W. Norton & Company; 2nd edition (June 7, 2006)

Customer Reviews

Kay Kaufman Shelemay (Ph.D., University of Michigan) is G. Gordon Watts Professor of Music at Harvard University and has taught at Columbia, NYU, and Wesleyan. A Fellow of the American Academy of the Arts and Sciences and the American Philosophical Society, she is a Past President of the Society for Ethnomusicology. She has received fellowships from numerous institutions, including the Guggenheim Foundation and the National Endowment for the Humanities.

Shelemay's research interests include musical ethnography, music and memory, and Ethiopian music and musicians in their North American diaspora. She is the author of nine books and editions, including *Music, Ritual, and Falasha History*, which won the ASCAP-Deems Taylor Award and the Prize of the International Musicological Society. An outstanding teacher, Shelemay received an Award for Distinguished Teaching from the Columbia University School of General Studies in 1982,

the Joseph R. Levenson Memorial Teaching Prize and the Phi Beta Kappa Teaching Prize at Harvard in 2006, and, in 2014, the Everett Mendelsohn Excellence in Mentoring Award at Harvard. In 2014, Shelemay was elected an Associate Fellow of the Ethiopian Academy of Sciences.

Needed this for a class, it came as expected.

Exactly what my son needed for his class in college and the price was better than at the college bookstore. Thanks.

This book is pretty good. It explains the different music of the world (not all of course) in a very easy and clear way. I learned a lot from it.

Silly overpriced book

This item DID NOT INCLUDE the "included" audio CD's. Customer support told me that Warehouse Deals are not required to include the CD's in shipments as they are considered optional accessories (despite that not being shown on the page). Because I'm using this for required course materials, I need the CD's, so I'm short on luck with this...If you don't need the CD's, then go right ahead and buy from them. The book is in good condition and was shipped promptly. However, if you need the CD's for a class or such, DO NOT buy it from Warehouse Deals.

Great book

As described and the cd's worked, all good

Had to have it for class!
