Customer Reviews

This set is similar to Moira Butterfields "The Olympic" series (Sea-to-Sea, 2011) for the same age range, but the integration of information about the Paralympic Games is laudable. "High-Tech" offers something different by covering topics from new equipment --School Library Journal This up-to-date series, released just in time for the 2012 Summer Olympics in London, is a high-interest, informative set which focuses on several specific areas of the Games. All books have lots of fact boxes, and are filled with easy-to-understand facts --Library Media Connection Exciting biographical information, a vivid layout, and outstanding photographs combine to create a winning book about international record-breaking Olympic stars. Readers of all ages will enjoy this book! It has so many great features that the reader will --Book Pushin Cats Blog (Tri State Young Adult Review Committee)
