The Moral Of The Story: An Introduction To Ethics (Philosophy & Religion)

Synopsis

Now in its seventh edition, *The Moral of the Story* continues to bring understanding to difficult concepts in moral philosophy through storytelling and story analysis. Students will study ethical relativism by examining the film *Avatar*, explore utilitarianism through *The Invention of Lying*, and discuss Kant's deontology by examining Woody Allen's *Match Point*. They will consider virtue ethics by juxtaposing Plato's "Myth of the Cave" with the themes in *The Truman Show*. Rosenstand's work is lively and relatable, and students will enjoy discussing examples from contemporary film, fiction narratives, and even popular comic strips. I highly recommend this book to students, teachers, and anyone who wants to get more out of their movie rentals. Rosenstand uses literature and films to introduce the reader to some of the main themes and theories of moral philosophy. It's great for "Introduction to Ethics" courses, or as a resource for video ideas to spice up your classes -- or your Saturday nights.

I needed it for a class, was a little expensive to rent but cheaper than buying it. I like the search feature with the digital versions of text books, makes looking for answers a little easier.

Required for a college class. There was some interesting information in the book, but it was very hard to really take anything away from it.

It's very long-winded but exactly what it says it is. Will work great for your Ethics class if you need this exact book. Great rental price. There is a lot of good information in it if you have time to actually read it.

Arrived on time and was exactly as expected.

Humanities 330 - Values and Ethics. Required coursework for my Management degree. Loved this class, had an amazing teacher. The book was actually a good read and has a lot of references to TV shows and Movies along with a lot of historical references to philosophers. Really good flow to this book that doesn't require a lot of jumping around.
