Customer Reviews

My first sleep hypnosis audio, first hypnosis in general. I was told as a teenager by a

hypnotist-entertainer that I am the type who is too alert/conscious and cannot be hypnotized. I was ignorant enough to believe it, and to view hypnosis as utter quackery. Then.. stress happened. Like A LOT. Nothing seemed to help my newly acquired anxiety and sudden social phobia. I can't use pharmaceuticals due to the nature of my work, and I am already physically active, so no traditional stress buffers would have made sense. I came across this while looking for other audiobooks and thought ah what the hay, what am I losing. No harm in trying. I listened to other authors/narrators via my free trial kindle. Absolutely hated some of the voices or the contents. This audio had an incredibly pleasant voice and wonderful sounds. I bought it. I listened to it. First of all, I can tell you right now - I have never slept so well, and woke up fresh and recharged. I have no idea what the narrator all says there because I fell asleep immediately after the first 3 lines he said. That happened the next night, and the next night, and the next, etc. I figured I'll use it for sleeping aid if anything. I purchased another audio file by J.Thielke, and alternated the two. Something about charisma, not that I'd ever admit I am lacking one, but that looked 'safer' to me than 'attract wealth', - let's just say I was now the opposite of skeptical, I was suspicious - what if the hypnotist convinces me to stop shopping online and save tons of money, thus attracting wealth. :) Bottom line. A month later my anxiety is gone. That could be a coincidence because the stress has subsided. But! I am noticing that I no longer have a problem socializing with high level executives, and - if I don't say so myself - people seem to be drawn to me?? That's no coincidence. Today I'm buying more of his books.

To make something that puts you to sleep and then wakes you up at the end is insane! Ok, to get around this (because you HAVE to in order to use the product). After purchase: 1) Get Audible software (on your PC) and install from: Audible: /sw?pageFlowType=PC_WIZARD 2) Remember the folder you set to download files in. 3) Go to Audible: /lib 4) Click the Download button 5) Open the file it downloads, and download the audio book 6) Get Sourceforge: /projects/aaxtomp3/7) Unzip it into a folder 8) run the GUI file (it's in German, but there's only two buttons) 9) click first button and point to the downloaded audio book 10) click second button and wait for it to convert 11) MP3 will be in same download folder. Load it into any audio editor and delete the end EDIT: won't let me post links, which are needed. I'll name the site and the end of the url and hope you can figure it out from there

Love it
