Customer Reviews

Another hastily written ebook that its author hopes will provide some passive income. Poor editing and proofreading make it difficult to read, and if you're serious about getting to play the harmonica, there are better options out there that will concentrate more on practical techniques.

Love the way the writes wrote each and every thing about harmonica and tips and tricks about to play the harmonica. This book gives me goosebumps. We can teach ourself with the help of this book and amaze our friends.

Bought this as a gag for husband's birthday. Turns out he loves it and "plays" it frequently. ;)

This book had no value or use what so ever. Huge waste of money!

The harmonica is one of those musical instruments that I've always wanted to play, so I bought an inexpensive one and started playing it. It's remarkable how well you can sound on a harmonica without having a clue what you're doing, but I knew I could never go very far without some kind of instruction. How to Play Harmonica is an excellent primer on the harmonica. Before going into the actual instruction on playing the instrument, the book delves into the history of the harmonica and the different types of harmonicas. There's an invaluable chapter on choosing the right kind of harmonica for yourself. It's a good book for novices. My only negative comment is that in the chapter on reading harmonica tablature, there were no illustrations. Even a short song showing the tablatures would have been helpful. I borrowed the book for free with my Kindle Unlimited subscription.
