## Customer Reviews

Needed book for a class. Prompt and as promised at a nice price.

I had to buy this workbook for a class. Surprisingly I actually learned from it and enjoyed it. I

completed the book cover to cover and I got the highest score in the class, so it helps. The didactic portion of the class was easier thanks to the good text.

Correct as advertised

Meet my expectations

I have to have this book for my college class and I'm working on a budget and it's perfect for it!!

same as in the school book store but for a way better price. highly recommend

My daughter needed this book for her class in high school. I would give it a higher rating but the price was absurd.

We bought the used EMR workbook to save some money, but it's in great condition and looks new. Awesome deal!
