# Writing Math Research Papers - 4th Edition: A Guide For High School Students And Instructors

## Synopsis

Mathematics research papers provide a forum for all mathematics enthusiasts to exercise their mathematical experience, expertise and excitement. The research paper process epitomizes the differentiation of instruction, as each student chooses their own topic and extends it as far as their desire takes them. The features and benefits of the research paper process offer a natural alignment with all eight Common Core State Standards for Mathematical Practice. Writing Math Research Papers serves both as a text for students and as a resource for instructors and administrators. This program received the 1997 Chevron Best Practices in Education Award as the premier high school mathematics course in the United States. This book is an excellent resource for students and teachers of the International Baccalaureate program.

## Book Information

Paperback: 298 pages

Publisher: Information Age Publishing; Revised ed. edition (September 1, 2014)

Language: English

ISBN-10: 1623968631

ISBN-13: 978-1623968632

Product Dimensions: 8.5 x 0.7 x 11 inches

Shipping Weight: 1.5 pounds (View shipping rates and policies)
