Tutor Ted's ACT Practice Tests

Synopsis

Also find our ACT online course at learn.tutorted.com The companion book to Tutor Ted's Guide to the ACT, this book features three practice tests designed to prepare students for today's ACT. When students have the knowledge and strategy of the test and then put those aspects into practice there is no limit to how much they can improve their scores. The ACT has been tweaked in several ways over the past several years. Our book reflects those changes so that students who use our tests are practicing with the best, most realistic practice ACTs available for sale. Here is what's included in this book: Three complete practice tests that reflect today's ACT Changes to the Writing, Reading, Math, and Science are all reflected in these realistic practice ACTs. Only the most realistic practice exams will help students get to the test as prepared as they possibly can be. Clear, practical solutions for all 645 questions Don't have a private tutor? Now you do. Tutor Ted offers a clear written explanation just like we share with our tutoring students for every problem in this book. Practice prompts for the Enhanced Writing section Write essays on prompts that reflect the 2015 revision to the ACT Writing Test. Double reading passages Just like what you will see on the real ACT! Tutor Ted: Non-boring ACT Prep Since 2000

Customer Reviews

Ted Dorsey (the original Tutor Ted) has been tutoring students for the SAT and ACT since 2000. He is a graduate of Princeton (A.B., English) and UCLA (M.A., Education). Ted earned a perfect score

on the SAT (1600) and PSAT (240) in high school. Since then, he has earned perfect scores on the ACT (36), SAT Subject Test in Literature (800), and SAT Subject Test in Math Level 2 (800). He is the founder of Tutor Ted, Inc., the author of four test prep books, and proud father to two cats, TK and Max.

I'm a student who has already taken a few real ACTs before purchasing this book. The English section of the tests in these books contain a lot of grammatical errors (ones that are not part of the multiple choice questions to change). I had to frequently pause the time and look to the back of the book for the real answer to make sure I wasn't going crazy. It was really frustrating. The watermark behind the practice tests are also pretty distracting. The essays they used for the English section did not represent the real ACT well. It was written poorly and without being proofread. The questions also lacked variety as almost every other one was "which is least applicable." I don't think the difficulty of these practice tests accurately matches that of the actual college board tests. Although I did appreciate their explanation for each question at the end of the test. If you're just looking to practice time management or get a very general overview of it this might do, but you would probably be better off using past versions of the real test. If you're looking for a study guide though, I do like their book on study tips for the act.

Good book as a tutor for the ACT.

Got this for my brother who's a senior and he said some of the passages for the reading and English they're going over in school for act prep. I'm an English teacher for high school as well- highly recommendsd

Tutor Ted has done it again! This companion to the "Guide to the ACT," gives you a real taste of what the test will be like. The practice tests are just the right length, detailed and helpful in practicing for the real deal.

Wow what difference a few days of review does!! Our junior's ACT was better than >99%! And she did reviews without much parental prompting. HIGHLY recommended.

Anyone taking (or preparing to take) the ACT knows he or she needs to take practice tests. Tutor Ted's practice tests are realistic and a good supplement to the available "real" ACTs.

Totally fulfills the Tutor Ted promise of "non-boring test prep." Each of the three practice tests provides a answer key that goes above and beyond, giving memorable strategies for solving similar questions. The guide is written in a funny, personable tone that is authoritative but approachable. Makes a great partner with Tutor Ted's Guide to the ACT.

I love this book. Perfect companion for "Tutor Ted's Guide to the ACT". Goes through strategies and helpful hints of test taking . The questions are clear and concise and easy to read. I like the levity of this book as this ACT topic can be a bit overwhelming for a student. Ted has almost made it "fun" to take tests.
