Days To Remember: The British Empire In The Great War

Synopsis

The First World War was, for Britain, as much about Imperial conflict, as it was about fighting on the Western front. Hundreds of millions of colonial subjects were forced into the war, and made a huge difference to the strength of the British army. In this fascinating study, Henry Newbolt and John Buchan take a general overview of the First World War, from its causes to the aftermath, with the focus on the central role played by both Britain and its colonies. They cover the major campaigns on the Western Front – Ypres, Loos, Cambrai, Marrires Wood and the Marne, as well as the battles fought around the globe – in particular Galipolli and the capture of Jerusalem - and the main campaigns at sea. *Days to Remember*™ is a vivid and fascinating account of the struggles and achievements of the British Empire in the First World War. Henry Newbolt was born in Wolverhampton in 1862, and went on to become a poet, novelist and historian. He was also a very powerful government adviser. John Buchan was a Scottish novelist, historian and Unionist politician who also served as Governor General of Canada. During the First World War he worked for the British War Propaganda Bureau. He is most famous for his classic thriller, 'The 39 Steps'. Albion Press is an imprint of Endeavour Press, the UK's leading independent digital publisher. Excellent accounts. Down to earth. A terrific journey thru that ghastly war where my grandfather served for 3 years.

well worth the read.

This reads as post WW I propaganda, almost an attempt to justify the great loss of men brought about by poor leadership. As an objective WW I history it misses the mark by a wide margin.

Readable book about soldiers of the Great War. Knowing what they went through makes it easier to understand why they were so reluctant to become involved in another war.

In enjoyed reading this book written from the Brit's point of view. I also enjoy reading some of the history of World War I

Excellent artifact of how the perception of the Great War change in the minds of the victors just years after the great calamity and how a 1920's writer promoted the great achievements of their countrymen in the trenches, on the high seas and in the air.
