Customer Reviews

Do not buy this map unless you have A LOT of difficulty reading maps because when Rand McNally says easy to read, they also mean DEVOID OF ALL DETAIL! First of all, the whole state doesn't fit on one side of the map. They split the state in half, putting the east side of the state on one side of the map, and the west side of the state on the other. This makes it harder to navigate your way around Washington because you can't lay out the map and see the whole state all at once. Instead, you have to keep flipping back and forth! Second, aside from making it more difficult to navigate, this Rand McNally easy-to-read map also lacks any sort of detail at all on its large view. It pretty much only shows highways. Hardly any secondary roads, and very few small towns seem to be listed! So unless Washington is a state without towns, this map is not showing me the whole state. If I'm driving through Washington with this map, it won't even tell me where I might find the next town, which means it doesn't show me if there might be a gas station just up ahead, or not for another 100 miles! Horrible. Just a horrible map. AAA, for their state maps, usually puts the whole state on one side, and detailed closeups of some areas on the other, and that's just fine. Some other companies produce state maps that same way, and they're very good. I would recommend going with one of those. Other maps will almost definitely have better detail on roadways and cities, which can be very important details.

If you are going to Washington State, buy this map ahead of time and study it. It kept me from being lost. I used it to plan my route for a 7 day vacation. Seattle, Rainier, St Helens, Long Beach, Ocean

City, Forks, LOL, Mt Olympia, Pt Angeles, Tacoma, and back to Seattle this was a great map to help me around the state for my first time...
