The Eyes Of Bayonetta: Art Book & DVD

Synopsis

A member of an ancient witch clan and possessing powers beyond the comprehension of mere mortals, Bayonetta faces-off against countless angelic enemies, many reaching epic proportions, in a game of 100% pure, unadulterated, all-out action. The Eyes of Bayonetta collects the stylish artwork behind this cinematic action game, featuring character sketches, CG models, monster, weapon, and location designs, and creator commentary. Also included is an exclusive hour-long DVD interview with the game's creators, taking you behind the scenes of Bayonetta's creation!

Customer Reviews

This art book is of course for huge fans. Also if you would like a glimpse into how they came to Bayonetta's design. This applies for various other characters and enemies but Bayonetta is the star and has the most coverage. It's great reading the comments from the artists and other team members about the process. I would love for there to be longer and more indepth especially for angel and demon designs, but what is here is already amazing.

I got this art book a few weeks ago and i'm very happy that i bought it. It contains lots of art work that you won't find anywhere else. Everything found in the 1st Bayonetta game is shown in this book. From characters to items to even accesories. The comments posted by the staff at the end of the book are also very nice to read. All in all a great book for anyone who loves Bayonetta and wants to have a more detailed look into the origins of her 1st game.

I purchased this for my daughter for her birthday because she is a huge fan of the game and is an art major. I sat and looked at the entire book with her and was amazed at the details. The art is beautiful in itself, and it explains in detail about the characters, weapons, and settings in the game. She absolutely loves it. Money well spent if you're a fan or know one.

Everything I wanted from the hit game by PlatinumGames! All the concept art, tidbits from the other development members, even a DVD with Hideki Kamiya and the rest of the team going through its development.

Beautiful artwork, and I really enjoy the captions on some of the drawings. A great purchase for fans of the game.

As an Artist and Gamer, this was a must have for our collection. I bought this as a companion to the PS3 game we bought recently, any game that gets you to buy a new game system just to see the art, and play the game....well, when I saw there was an art book to go with it DAMN! The concept art, and design work exceeded my expectations. I have all of the "Blizzard" World of Warcraft art books to date, and this book surpasses even them in production value. If you like Bayonetta, heck even if you have not even played the game! This art book is a worthy addition to any collection.

Good book but released about 3 years after the game so I think many people won't buy it so bad for them... In this book there is a lot of information about the different protagonists and enemies of the game through pictures illustrating the hard work of the Platinum game to give us the best experience game! The illustrations are numerous and we have details from the team about everything. Moreover there are exclusive pictures! I didn't watch the DVD but I'm sure I will love it!

I got this for my wife, who is a total Bayonetta nut. She loved it, and it's packed full of great artwork. She plans to use it as a basis for her pencil drawings. The cover is very thick and sturdy, and it looks like it will last for a long time.
