# Love By The Numbers: How To Find Great Love Or Reignite The Love You Have Through The Power Of Numerology

## Synopsis

The love you have always desired is in the Numbers; International bestselling author and media sensation Glynis McCants created this exciting guide to love through the power of Numerology because she believes that the greatest gift one can receive is that of true and lasting love. The secret is in understanding you and your partner by the Numbers, and gaining the insights you need to keep your love thriving! Glynis' celebrated system is a contemporary spin on the ancient Science of Numerology that is easy to use and amazingly accurate. She'll teach you the simple way to create a Numerology Blueprint that reveals what kind of mate would fulfill your;or a potential mate's;innermost needs and desires. If you're single, you'll learn how to pick the right partner from the start! If you're in a relationship that's lost its spark, you'll have the information you need to reignite the passionate love you once had. With *Love by the Numbers* as your guide, you can ensure that your love relationship stays healthy, satisfying, and on track for a lifetime. Acclaim for Glynis McCants L.A. Confidential magazine "To put it simply, if cupid and a clairvoyant were to have an affair, Glynis McCants would very much look like their offspring." Leeza Gibbons, talk show host "Whether it's the numbers of our favorite celebrity couples or our own bouts with cupid's arrow, we all want to gain more insight into what makes love work and how we can be better at it! Glynis' Numerology is like GPS for those who are tired of being lost on the road to love." John Edward, psychic medium "When I think about Numerology I think about two people: Pythagoras and his modern day equivalent, Glynis McCants, The Numbers Lady. Glynis has taken a historic metaphysical science and transformed it into an easy to understand, organized and quite honestly entertaining field of study. To sum it up, she's GOT your Number;now it's time for you to get it."

Glynis McCants has been practicing numerology for 21 years and has given over 15,000 personal readings. She is a media sensation who has appeared everywhere from The View to Dancing with the Stars. Author of the bestselling Glynis Has Your Number (Hyperion), she resides near Pasadena, CA.

Excerpt from Chapter 1: Introduction to Numerology We come to love, not by finding a perfect person, but by learning to see an imperfect person perfectly. &#x97;Sam Keen When I wrote my previous book Glynis Has Your Number, I had so many topics to cover that I only put one chapter about love in the book. I vowed that my next book would be dedicated to love, because I believe there is nothing more important to our well-being. I have been practicing Numerology for over twenty-one years, and one of my greatest pleasures is to bring two people together and help them find lasting love by the Numbers. It is a blessing when we share our lives with kindness and consideration to help each other achieve our dreams. I find equal satisfaction in counseling married couples whose marriages have lost their way. Numerology has helped them to understand each other, begin to work through their differences, and fall in love all over again. It isn't as much fun if you have a great career and achieve success but have no one with whom you can share your triumphs. I strongly believe that God did not put us on a planet with millions of people and yet doomed us to live our lives alone. It only makes sense that He would want us to be able to share our lives with the right someone else. If you are dating and looking for a lasting love, I can help you find a loving partner through the power of Numerology. If you are already in a relationship and know that it is not a healthy one, help is on the way! How It Works Numerology, a 2,500-year-old science of numbers, was created by the Greek mathematician Pythagoras. Pythagoras believed that when we are born, we enter this world with very specific Vibrations. These Vibrations have a direct influence on our character and what our life purpose will be. Pythagoras attached a Number to each Vibration, using the Numbers 1 (new beginnings) through 9 (completion). If you have a person's first and last name, and full date of birth, you can discover exactly who they are by using the Pythagorean Number System. There are three Numbers that come from the name (the Soul Number, the Personality Number, and the Power Name Number), and there are three Numbers that come from the full birth date (the Birth Day Number, the Life Path Number, and the Attitude

Number). Below are the brief definitions of what each number tells you about a person. The Soul Number: Defines what will fulfill your Soul. The Personality Number: Defines how people perceive you. The Power Name Number: Defines the strength of your character. The Birth Day Number: Defines how you appear to people when they first meet you. The Life Path Number: Defines your life's purpose. This Number has the biggest impact on your Life. The Attitude Number: Defines your general outlook on life. Here is an example of what the six numbers above look like when they are laid out: 93345\*/7Attitude

When you do a Numerology Blueprint, the layout of the numbers will always be in this exact order, going from left to right. The first number will be the Soul Number (9), the second number will be the Personality Number (3), the third number will be the Power Name Number (3), the fourth number will be the Birth Day Number (4), the fifth Number will be the Life Path Number (5), and the sixth number will be the Attitude Number (7). I will always put an asterisk (\*) next to the Life Path Number, because it is the most important Number when it comes to love relationships. However, if your Life Path Numbers are a Challenge, all is not lost because I do give you advice on how to deal with this in Chapter 14. When you have determined the six numbers for you and your partner, you will have the information you need to create a Personal Numerology Chart Comparison and see whether this relationship is worth pursuing or ending so you can move on. This book will help you answer this question with confidence. If you are in an unhappy marriage, and your relationship is mostly Toxic but you want to save it, perhaps because you have children or just do not believe in divorce, there is information throughout this book that will give you the tools to heal your relationship. When you do a Personal Numerology Chart Comparison, there are three ways that each number interacts with another number: A Natural Match Number means you have an instant rapport and an easygoing understanding of each other. A Compatible Number means you get along most of the time and can learn to agree to disagree. A Challenge Number means that no matter what you say, you will be misunderstood. More often than not you will find a break down in communication, which can feel very Toxic and make the relationship difficult. I will discuss each of these further in Chapter 3. As time goes on, there are couples who believe they have outgrown each other, and others who say they grew much closer in later years. I believe this actually has to do with the Maturity Number (what you achieve in midlife) and the Destiny Number (where you are headed), which are two Vibrations that reveal themselves later in life. Although these two Numbers are not one of the six Numbers used in your Numerology Blueprint, they do also help you understand each other better. By learning what they are and mean, you can prepare for them with your mate; or if you are dating and find they are Toxic, you may want to reconsider the relationship. By studying your Numerology Blueprints with your partner, you can learn a whole new way to

communicate, so that your partner will actually hear what you are saying'perhaps for the first time.

I believe "Glynis Has Your Number" is a better book about numerology. In this other book she explains in more detail about numerology. I understand that the "Love by the Numbers" would be more popular because everyone is looking for a fast fix to hook up romantically with someone else. However, if you really want to understand numerology, the "has your number" book is, in my opinion, better. In general I equate Glynis McCants with the (1960s/70s) author, Linda Goodman's "Sun Signs" about astrology. I found some interesting parallels between McCants' explanations of numerology and Goodman's explanation of astrology. It is all entertaining and I found some fundamental truth in both.F. Parker

I gave "Love by the Numbers" to my 15 year old granddaughter for her birthday. She absolutely went bonkers. She loves horoscopes so when I saw Glynis McCants on Dr. Phil I thought numerology might excite her also. She cannot put this book down---she is doing charts for everybody she knows--so she was able to absorb and understand this completely. She told me I never have to give her another birthday gift - she loves it so much she wants to marry it. It is so great to give a gift that opens a brand new door for someone---and I am so glad she has an edge on the dating scene--she is charting every boy she knows. This book really taught her alot about herself and all her family members also. It has opened up a new understanding of all types of relationships and I only wish I had read it at 15. This is a great book and it is easily understood.

I was introduced to Glynis through John Edward, and was intrigued by numerology. I bought this book thinking it would be an overview of numbers but was i wrong. This book is a very intense and in depth look at all the numbers their meanings, who would be compatible with whom and how to get all of your numerology. If you are interested in finding out if they are the person for you, or even your own numerology this would be the book to go to. Awesome. Thanks Glynis.

Found it 80% accurate for me and my girl. Its just that I don't have time to get back to it. Its not compelling enough. I wanted to see if it bore any thruth, it does. But who would pick a friend because of it lol, few. You usually get this book after to find out why it worked so well/poorly. Love is truely blind.

This book felt like watered-down Numerology, which I guess it is. But I enjoyed the author's first book, so I gave this a read. If you are new to the subject, try it out. Otherwise, expect nothing profound. This is a superficial introduction for people not normally associated with the Occult. Some inconsistencies and flaws, but overall a simple guide for match-making. Better books on Numerology: 1) Numerology by Hans Decoz 2) Numerology and the Divine Triangle 3) Complete Idiot's guide to Numerology 4) Glynis Has Your Number

How informative even though some of the info is way over my head, and I'm not interested enough in my terse read to truly internalize every nuance of what the numbers have to say. I know enough to know that my man and I are numerically compatible, and I agree that my ex and I had challenging numbers even though our wedding day was perfect. There were details to which I agreed to a "T," and others which didn't seem to fit, but overall, I thought McCants' book was fascinating, and I will certainly reread when I decide to take life-altering chances! I would recommend the book to those who are interested in a mild walk on the wild side. Great power in knowledge. Thanks to Dr. Phil for having her on his program!

Great read. Really help me put things into perspective. I read this book often to remind myself of the things to keep in mind when daring.

I tried to find a book about Pythagoras who stated everything in life has to do with numbers. Unfortunately I could not find what I wanted, and settled for Love by the Numbers which is Pythagorean based. Does it work or not? I don't know. Still an interesting read. I thought I was back in junior high where I saw classmates employ similar means to find out if their favorite male classmate was in their futures best interest!
