MasteringBiology With Pearson EText -- Standalone Access Card -- For Campbell Biology (10th Edition)

Synopsis

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. NOTE: Make sure to use the dashes shown on the Access Card Code when entering the code. Student can use the URL and phone number below to help answer their questions: <http://247pearsoned.custhelp.com/app/home> 800-677-6337 Used by over a million science students, the Mastering platform is the most effective and widely used online tutorial, homework, and assessment system for the sciences. This is the product access code card for MasteringBiology with Pearson eText and does not include the actual bound book. The Tenth Edition of the best-selling text Campbell BIOLOGY helps launch you to success in biology through its clear and engaging narrative, superior pedagogy, and innovative use of art and photos to promote student learning. The Tenth Edition helps you develop a deeper understanding of biology by making connections visually across chapters and building the scientific skills needed for success in upper-level courses. New Make Connections Figures pull together content from different chapters visually, helping students see a big picture • relationships. New Scientific Skills Exercises in every chapter use real data to build key skills needed for biology, including data analysis, graphing, experimental design, and math skills. New examples show students how our ability to sequence DNA and proteins rapidly and inexpensively is transforming every subfield of biology. A wide variety of new assignment options in MasteringBiology, the most widely used online homework, tutorial, and assessment program for biology, help students strengthen their understanding of biology and practice science skills. 0321833147 / 9780321833143 MasteringBiology with Pearson eText -- Standalone Access Card -- for Campbell Biology 10/e Package consists of: 0133888606 / 9780133888607 MasteringBiology Content -- Access Card Package Sales Accumulator -- for Campbell Biology 0321833120 / 9780321833129 MasteringBiology -- Pearson eText Upgrade -- for Campbell Biology

Customer Reviews

Reece has an A.B. in Biology from Harvard University, an M.S. in Microbiology from Rutgers University, and a Ph.D. in Bacteriology from the University of California, Berkeley. She taught biology at Middlesex County College and Queensborough Community College. Michael L. Cain taught introductory biology and a broad range of other biology courses at New Mexico State University and Rose-Hulman Institute of Technology for thirteen years. He is now writing full time and is affiliated with Bowdoin College in Maine. Dr. Cain has published dozens of scientific articles on topics such as genetic variation in plants, insect foraging behavior, long-distance seed dispersal, and factors that promote speciation in crickets. Dr. Cain is the recipient of numerous fellowships, grants, and awards, including the Pew Charitable Trust Teacher-Scholar Fellowship and research grants from the National Science Foundation. Robert Jackson is a retired member of the faculty of the Information Systems Department at Brigham Young University. He has researched, published, and taught in the areas of object-oriented systems development, e-commerce, Web systems, project management, and information systems education. Bringing a wealth of real-world business experience and technical expertise to this book, Dr. Jackson is currently self-employed as a principal in several new e-commerce ventures, where he practices firsthand the analysis, design, and business principles presented in the Seventh Edition. He received his Ph.D. in Computer Science from Brigham Young University.

Complete and utter waste of money if you are using this for homeschooling or any setting outside a class that requires this "Mastering Biology". None of the tools in the eText are interactive, despite it being listed in the Campbell Biology book as interactive (you have to be assigned a study question for it to be actually interactive). The additional study areas are also not very useful so all you really get with this is an electronic version of the textbook, and you don't even get that unless you are actually online. It is not a PDF copy of the book, not that I wanted or expected that feature. In

summary, rather useless for anyone outside a university setting.

Access code was accepted. Good to go for my class.

Pretty decent program. It tracks what you're missing on your homework and makes an "adaptive follow-up" that helps re-enforce chapter concepts. Great tools for studying, too.

Complete waste of time and money. Product did not work. Customer service is horrible.

My access code worked perfectly good and for a really great price. A++++!

Required book for nephews college. Just what the teacher described

Exactly as described! Thanks!!!

Textbook and access card great for beginning biology classes, study modules on master biology are really helpful as well!
