This is an excellent source book for studying the European discovery of the New World. When explorers came, they brought artists, and the artwork included in this book is from one of them. Many of the native people (especially in the warmer climates) did not dress to cover and that is portrayed. While I wouldn't say the book should be banned or is pornographic, I would warn parents that they may want to use discretion in allowing their children easy access to it. The drawings are sketches and done after a manner to document what they saw, not as anything else, and that comes through so I give a qualified recommendation for it.

Very good illustrations with a helpful text. Fills in a little known period in our history. Just what I was looking for.

I expected this book to contain only pictures in color. The description says it has water colors done by John Smith of Pocahontas fame. There is a group of pictures in color but they are largely of flora and fish. The largest part of the illustrations are in black and white. Nonetheless, I'm glad I bought the book. It is in excellent condition. Katy Brown

Beautiful Condition and a treasure trove of information and pictures!!!

This book has fantastic artwork by the early European artists that voyaged to America. It's a unique view of Native peoples and American wildlife.

Having been written in the 1950s and reprinted in the 1960s, this is not the newest work on this subject matter. It does, however, provide a great deal of information concerning French colonizing efforts in the New World (especially is what is today Florida). The reprints of the block print illustrations are great. I'm into collecting re-prints of antiquarian books, especially those concerning exploration and discovery, and if you are into that as well, this is one book that should be in your collection.

great book its ashame to see history destroyed for the sake of a cruise ship,see [...] jaxport does not care about the founder of the river of may or how important history really is, we learn from books and try to preserve our history such as this.
