This book is amazing! How does it not cost more money!?! We read at least one story each day to our son.

A must have for a major Thomas fan. My son is still a fan at 9 yrs old and has read this book a handful of times. It is a handsome book, with lovely illustrators and a great keepsake. It would be difficult for little readers to read independently but a great story time book.

This is more than a beautiful book. This is one to cherish and keep. Very thick, full of beautiful illustrations and stories. We gave it to our son on the special occasion of graduating from Kindergarten. He LOVES it. A must for every Thomas fan!!!

This is a great collection that my son will keep forever. Right now he is five and loves Thomas and all trains. These are very kid-friendly stories that are great for quality story time. It provides all of the background regarding the various engines and their relationships. We are still working our way through the book and he always looks forward to the next story. Each story is just the right length.

my son enjoys this book he loves thomas and makes me read it over and over again and there is lot of pages go through over 500 pages but worth it he tries to read some of the pages and I read some of the pages as well. this book is good for any age for a child who loves trains.

I've read the entire thing to my son for bedtime stories, and he loves this book. There is actually some depth to the older stories lacking in the newer versions. Nothing profound, but these older stories have useful sentiments for teaching your kids. The only knock against it is the pages are easy to tear; they are thick and not all that pliable. Still, a great gift for any Thomas fan.

Was looking for the old stories. My mother got the set of the same content that is broken down by chapter. Those books (set is about \$110) has many more pictures, if you need them. My 3 year old loves this one as well as he can carry the big book around and feel like a "big boy!"

My Three Year Old received this for his birthday and not a day has passed that we haven't read from it. It was his favorite gift!
