Interventions In Structural, Valvular And Congenital Heart Disease, Second Edition

Synopsis

At one time, many children born with congenital heart disease (CHD) suffered from issues that carried fatal prognoses. But that's changing, thanks to technological advances. *Interventions in Structural, Valvular, and Congenital Heart Disease, Second Edition* guides you through the interventional treatment of congenital, valvular, and structural heart disease in the children and adults. The book emphasizes the practical aspects of procedures and covers other important areas such as indications and patient selection, potential pitfalls, and complications. See *What's New in the Second Edition*: Contributions from new authors who are pioneers in structural interventions in adults and transcatheter aortic valve replacement Expanded emphasis on the importance of imaging alongside the technical details of equipment and its safe and effective delivery Coverage of emerging techniques at the forefront of interventional treatment such as fetal interventions, hybrid procedures, and mitral valve repair Greater understanding, technical knowhow, and wider availability of catheters, balloons, delivery systems, and devices have spread intervention into the realm of acquired valve disease, degenerative disease of the aorta, paravalve leakage, postinfarction ventricular septal defects, and closure of the left atrial appendage. The book draws together expert interventionists from throughout the world to present approaches to congenital and structural heart disease that results in better outcomes for patients.

Book Information

Hardcover: 1051 pages

Publisher: CRC Press; 2 edition (December 19, 2014)

Language: English

ISBN-10: 1482215632

ISBN-13: 978-1482215632

Product Dimensions: 11.2 x 8.6 x 2.1 inches

Shipping Weight: 7.4 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 2 customer reviews

Best Sellers Rank: #685,696 in Books (See Top 100 in Books) #81 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Perinatology & Neonatology #120 in Books > Medical Books > Medicine > Internal Medicine > Pediatrics > Perinatology & Neonatology #415 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Cardiology

Customer Reviews

"an excellent reference for advanced interventional cardiologists in training as well as those in

practice. The focus on the technical aspects and techniques of the procedure will be particularly helpful to those in training." •Arnold Johnston Hite, MD, MS, Ochsner Clinic Foundation for Doody's Review Service

Edited by Horst Sievert, MD, director, CardioVascular Center CVC and St. Katharinen Hospital, Frankfurt, Germany Shakeel A. Qureshi, MD, FRCP, paediatric cardiologist, Guyâ™s and St Thomasâ™ NHS Foundation Trust, London, UK Neil Wilson, MD, professor of pediatrics and director, Cardiac Catheterization Laboratory, Heart Institute, Childrenâ™s Hospital Colorado, Aurora, USA Ziyad M. Hijazi, MD, MPH, MSCAI, FACC, acting chief medical officer and clinical service chief, Department of Pediatrics, Sidra Medical and Research Center, Doha, Qatar

The bible

A must have reference for any interventionist who practices structural heart disease. Written by a highly selected group of experts from across the globe, this book is easy to follow and very rich in technical details and practical tips and tricks. There are numerous figures, illustrations, and videos to facilitate the grasp of otherwise complex techniques. Highly recommended.
