Customer Reviews

As a self-professed book-a-holic I am always on the lookout for new authors to read. I read a variety of genres but my favorites tend to have a strong female lead. I have read every book I can find from the likes of; Austin, Barr, Christy & Reiche's. When I found out that one of my favorite authors JC Cassels had a story in this boxed set I knew I had to get it. Read below for a teaser of why her book

is so awesome! United by extortion, divided by duty, someone wants them both dead. They want each other. The catch is, nothing is what it seems. Convicted of treason and sentenced to be executed, Bo Barron is the last person who should be infiltrating a Sub-socia weapons auction. But when her father is kidnapped and the ransom demand is the schematics to an experimental weapon, she has no choice but to go under cover with her uncle to get it. Nobody counted on former-government-agent-turned-holo-feature-hero Blade Devon's infatuation with her. A botched assassination under the guise of a bar brawl leaves Bo blind and Blade wondering if there isn't more to this job than he was led to believe. Never able to resist playing the hero, Blade tends her injuries and delves deeper into the intrigue only to find this mission isn't about a weapon at all. It's about two Sovrans maneuvering for control, with Bo and Blade as their pawns. All Bo and Blade have to do is figure out how to survive the game they didn't know they were playing.

I was only interested in 3 of these books, but that's just a matter of taste. All of the books looked to be very well written. The 3 that I read were excellent. These were: Bitter Ashes by Sara C. Roethe, Amaskan's Blood by Raven Oak, and The Enclave by H. M. Clarke.

Love it! So many books for a low price. Plus 2 are gems! 4 are great and 4 are good.

I generally don't review every story in a box set because if I don't like one or two of the stories, it doesn't affect opinions on the set as a whole. That is definitely the case in this box set. Generally, I really liked the books in this set. They were well-written, had terrific characters, and had engrossing plots. However, I have to admit there was one I didn't care for very much, mostly because the genre wasn't one I like to read. Yes, I think other people would like it, but I just didn't. However, the set as a whole was a nice diversion and I'll probably look up at least half the authors to see if they've got anything else I can read. Besides, how can you go wrong with .99 for 10 full-length novels even if you don't like some of them? Highly recommend! Thanks to the authors for the e-book which I read voluntarily. This exact review will be posted on both [Amazon](#) and Goodreads.

Out of 10 stories to read I picked 2: Poison & Fire by Adela Darken; Bitter Ashes by Sara C. Roethle. Poison & Fire is book one in the series Undead Adventures. This is a story of wizardry and the undead. Adela is an apprentice to the Wizen Bunion and she is learning to be the next great

wizard so to speak. While creating a potion she over adds a couple ingredients because her mind wonders. Thus leading to her death, sorta... Wizen knows Adela isn't exactly dead just by the ingredients she used, so she will awaken and Wizen will be waiting. When Adela awakes, she is unsure where she is but determined to get out. If I tell anymore it may give it away, so I will tell you it was an enjoyable read. It has all kinds of elements that Adela thought of to make this short have enough to keep you interested. Her writing flows and I am happy to say there is a bit of illustration at each chapter, this I don't see often but enjoyed nonetheless. I think I will find book 2 and continue with Adela's journey. Oh notice the main character's name (coincidence)?? Bitter Ashes is also book one in it's own series. Madeline has been kidnapped from her home and taken to another realm is best to describe. She learns that she is a certain kind of mythology character. She is needed for a reason but shouldn't trust anyone. As the time passes everything is not what it seems and everyone keeps changing from a good to a bad or vice versa. No more or I'll give this one away too. Sara you have intrigued me with your story and will look forward to book two. Your writing flows and is in a way written to keep readers wanting to know and I am one of them. I am glad to always find new authors especially in anthologies. The two stories are of sci-fi and fantasy with strong leading heroines who are determined to do what they were born to do even if they didn't know at first what they were meant to do.

What an incredible deal. I was only familiar with one of the authors in this set before I picked up a copy, Alesha Escobar. I loved her Gray Tower series. In this set, she has a new book called House of Diviners. That book is a real page turner dealing with magical shamans who can cross between the spirit world and the physical world to help people fully cross over. When I saw it was in a box set, I had to get a copy. You simply can't go wrong. House of Diviners alone is well worth the cost of this set, and you get 10 additional novels. Highly recommend.

I really enjoyed these novels. The authors were amazing. Each novel was unique and very complimentary with the other. I have my favorites, but overall an excellent read.

There aren't too many well-written books (let alone a boxed collection) that has strong female characters as the protagonist of the story! And here there are TEN! Every book was well-written with scenes that made me feel as if I was an on-looker inside the stories themselves! I definitely want to check out more from the authors! :-)
