ISBN-13: 978-0307244963

Product Dimensions: 4.1 x 0.3 x 6 inches

Shipping Weight: 4 ounces

Average Customer Review: 4.5 out of 5 stars 2 customer reviews

Best Sellers Rank: #740,387 in Books (See Top 100 in Books) #104 in Books > Science & Math > Nature & Ecology > Ecosystems > Coastal #358 in Books > Science & Math > Biological Sciences > Animals > Marine Life #1119 in Books > Science & Math > Nature & Ecology > Oceans & Seas

Customer Reviews

The Golden guides are classics, sometimes dated in both name and nomenclature, but for a kid just getting started they can't be beat. They are small for small hands, have general but limited information and decent color drawings. You know a book is well received when it has continued to be printed for well over half a century!! I teach in a College and was surprised to see that they are still the book of choice for some Biology students who also grew up with them. The only reason I don't give them 4 stars is the fact that much of the info is awfully dated.

Found this at the library and I had to order my own copy. Living by the beach this is great for the kids and I to look through and get information on the things we see each time we go.
