Customer Reviews

With ten years of experience in full-time RV-ing, the authors clearly and matter-of-factly provide copious information on everything a potential RV-er would want to know. This book is filled with pictures, facts, financial information, interesting (sometimes funny) anecdotes, and frank discussion of some of the mistakes made by the Hofmeisters. The presentation is easily accessible to all and should especially appeal to people contemplating this lifestyle. The information appears to be accurate, the caveats are helpful and well meaning, phone numbers are available for some of the attractions mentioned, and an appendix lists phone numbers and addresses for RV service providers. The book covers most states, although Mississippi, parts of the upper Midwest, New England, and North and South Carolina seem to have been left out. Public libraries serving active retirees and soon-to-be retirees (older baby boomers) might want to invest in this inexpensive title. AScott R. Johnson, Whittemore Park Middle Sch., Conway, SC Copyright 1999 Reed Business Information, Inc.

New from the authors of *An Alternative Lifestyle...*...the most up-to-date information on the lifestyle that more than one million are now enjoying which is Full-time RVing. On March 30th, 1989, exactly two weeks after Ron Hofmeister retired as Deputy Director of Finance for the Michigan Department of Transportation, he and his wife Barbara turned in the keys of their town house and started the

ignition of their new home, a twenty-four-foot motorhome. The couple's car was hooked up behind, with their bikes perched on top. After three and one-half years, they traded in the small motorhome for a thirty-four-foot Bounder motorhome. Barb called it her mansion. What started out to be a one or two year adventure has turned into a permanent lifestyle. In 1997, they traded again; this time they purchased a thirty- nine-foot, luxurious American Dream motorhome, which Barb calls her castle. Shortly after their adventure began, Ron and Barb sat down to write a book about the full-timing lifestyle and how to prepare for it so others would not be afraid to venture out. Their book, *An Alternative Lifestyle*, sold thousands of copies and was featured on Good Morning America. Radio, TV, and newspapers across the United States did big stories about their adventure. And the book kept selling and selling. One reviewer said it was a "how to book that read like an adventure story." Now Ron and Barb are back with a brand new book. With ten years worth of experience in this adventure-filled lifestyle, they not only detail how to do it, but where to go, what it costs, what to do if illness strikes, and much more. They follow each chapter with their own personal stories.

This book is an excellent read whether you are seriously considering life on the road or not. This book may help you decide if full-time RVing or even extended trips in an RV is right for you. The authors are candid about rewards, challenges, and their experiences while full time RVing. If you are financially able to stay in higher end places as the authors did, you could follow their trail. If your budget is more restrictive or you own a smaller RV or alternative, this book provides excellent information and tips for you to consider before you embark on your adventures. This book is also an excellent read for curious people -- after reading the library copy, I bought a copy to read and re-read for entertainment as much as for learning.

Awesome book. It would get 5 stars but some of it like prices on RV's are obviously outdated but I love the adventure stories in the book and the learning experiences from those that have went before us! That part hasn't changed. I even bought my sister a copy of the book. We both plan to Rv full-time, her sooner than me as she has no kids at home. I had five, 3 gone and 2 to go!! I am getting very excited about the many adventures I will have.

Good Information but dated.

This book was enjoyable for those who have not yet moved on to this lifestyle. However it could have used a little more "how to" and a little less of their previously published newsletters and blog.

Could do with some updating.

Good information

It gives a lot of good tips and stories. My boyfriend and I plan to RV full time and will use a lot of what is presented.

Lots of great tips. A fun read!

Great book! Very insightful from personal experiences. Some of the info is dated as technology connection issues have changed in the last decade. But the authors have us thinking about this new option for our next season of life. :)
