## Customer Reviews

Advance praise for Dr. Perricone's 7 Secrets to Beauty, Health, and Longevity "Once again Dr. Perricone's quest for successful and safe dietary interventions has taken the science of nutrition to another level. The seven secrets focuses on cellular rejuvenation beginning with the mitochondria, the energy producing part of the cell. Step-by-step, learn how to rebuild organ systems, rejuvenate aging skin, and eliminate body fat while maintaining muscle mass and rebuilding bone. Dr. Perricone continues to show, clearly and succinctly, his leadership in formulating a healthful life style." "Harry G. Preuss, M.D., M.A.C.N., C.N.S., professor of physiology, medicine, and pathology, Georgetown University Medical Center, Washington, D.C. "There are a lot of things about Dr. Perricone's science that really resonate with me. Here is one of them: growing up Italian has kept me in touch with the magical properties of olive oil. Dr. Perricone has taken this and others to a new level" "Steven Tyler, lead singer, Aerosmith From the Hardcover edition.

Im still enjoying the read from this book. Very scientific (well as far as I am concerned anyway), packed with amazing information about many aspects of health. I use this mans products and have read other books of his. I find him trustworthy, and when I follow the information in the book, I most certainly feel better.

Book arrived in great time undamaged. Started reading haven't finished but so far a great read.

We're all going to age but why not do so as gracefully and as comfortably/healthfully as possible?  
This book makes it easier.

Amazing info

There is a lot of great content packed into this book. Dr. Perricone writes about the benefits to eating certain foods and taking specific supplements. I have been taking his advice and am very pleased with the results. After all, it can't hurt. The book is easy to read and understand. The language doesn't get too scientific on you, even though it is writing about the science of these foods and supplements. All of his recommendations are things that can actually be done, without too much effort.

Greatest positive information on how to improve your looks, life, health. All based on sound scientific evidence. Easy to read and understand.

I have a few perricone md books and I love to read them because it has a lot of information on health & beauty...

Thanks.
