Customer Reviews

I purchased a second copy of this bewitching little deck. It has a place in the history of fortune-telling cards here in the West. For many years it has been available and quietly tucked into the divinatory libraries of so many of us. The deck has its own fortune-telling system. It is similar to the Lenormand tradition, so popular in recent years. I felt a sense of fealty to this little charmer, possibly because it is so underappreciated. It does not contain colorful artwork. But that is precisely why I like it. Each card has a Lenormand-like image at the bottom of the playing cards we all know. Now, I have a working copy of the deck and a collector's copy. You really feel tradition when you work with this deck. Try it. You'll like it.

I had a pack of these cards that is so old the box is a brown velvet lift off lid. I liked reading with them, but was afraid I would damage them. So I bought a new pack. there's a reason these cards have been around FOREVER and are still in print. Many of the people I know who are now readers and teachers of tarot began with these. The meanings are right on them so they're fairly straightforward to use. There is a bit of kitsch but it's cute and fun not annoying. the illustrations aren't always the best, but they are the same as they were when they were first drawn a million

years ago, so you can forgive the dated feeling to them.fun readings for parties and among friends!

This is actually my first tarot deck. Despite what some of the other reviewers have mentioned (this being a very intense deck) I actually like it. At times it can be a little scary but as long as you're not a super sensitive person and can handle the truth this could turn out to be a really fun deck to learn from.

I am glad that I found the Gypsy Witch Fortune Telling Playing Cards here on . I had these cards way back in 1987 and when I moved somehow they got lost in the move. It's a good thing that I kept my journal and saw that the cards have not changed a bit and then I set out to see my fortune. I highly recommend to anyone who wants to see what will happen in their future to purchase these cards. Thank you .

First of all, who could resist the packaging of this deck? If nothing else, buy it as a Halloween decoration and set it out with your Bethany Lowe and other Halloween decorations each year.I do not know why descriptions of the deck don't usually mention it is a Lenormand deck. Marie Anne Lenormand was a legendary professional reader in France for 40 years in the late 1700's to early 1800s. She was said to read for Napoleon and his wife Josephine, as well as other remembered historical figures. Gypsy Witch Fortune Telling Playing Cards are a blend of normal playing cards and Lenormand cards in suit and structure, but have a small roughly illustrated scene in the bottom right of each card and a divinatory phrase or two above.Without any preparation, I recently opened my new deck and laid out a reading for myself and looked in the little booklet that comes with this. The reading was on topic and made sense.To learn more about Mlle. Lenormand read the chapter about her written in 1858, not long after her passing.This chapter is available free on google books, or you can purchase the book on .Remarkable Women of Different Nations and AgesÂ Remarkable Women of Different Nations and Ages - Primary Source EditionÂ REMARKABLE WOMEN OR DIFFERENT NATIONS AND AGES

I bought these cards because my mom had a set of them back in the 60's or 70's... They always intrigued me. So I was pleasantly surprised to see that they still looked the same as I recalled. Not saying that my mom is a gypsy or a witch, but hey, you never know. This is now the 8th deck that I own. I can't stop buying them. :)

Fun Cards! I really liked that the meanings are written directly on the card! This can be very convenient for readings, but then again it can be distracting when your trying to be intuitive. As long as you try to find a happy balance between the written meaning and your intuition - then this can be a fun deck. Depending on what the reading is for, it can be a very helpful deck and add insight. However, if your just trying to have fun and aren't into serious card reading, this is a FANTASTIC deck and worth purchasing!

Even though I own quite a few regular tarot decks, I bought these for my daughter to teach her in a fun way how to divine. I actually picked up a few pointers myself... very cool idea. I do wonder if gypsy's read them this way or not, but reading a person's fortune is easy and painless... as you read them one by one they begin to paint a picture of the possible future... highly recommend, especially at such a low price point. The art sucks, but who cares? It's easy, affordable, entertaining, and you just might learn a thing or too yourself!
