## Customer Reviews

I have many of the Penny Whistle books, and this one is as charming as the others. There are plentiful ideas for fun Christmas-themed parties here, accompanied by--as ever--charming and whimsical illustrations and margin notes. This series never takes itself too seriously, which is part of what I'm drawn to. As usual, the book lists parties from younger ages all the way up to adult Christmas festivities, and the ideas (and recipes) are clearly explained. Lots of scope for imagination, and really fun.

This is a classic .. great as a gift I've used mine for over 20 years and bought them for others

Love this book! Use it with kids all the time. Easy directions and fun activities to do with any age child.

Good ideas to make Christmas more fun!

This book is really fun, and full of creative ideas for the whole family. The recipes are fun and easy as well as the decorating and game ideas. These Penny Whistle books are brilliant!!

I like this book and have already used some of the decorating ideas and recipes. However, be aware that there is a part of the book (pages 100 & 101) that explain to children how to read palms and encourage them to use a Ouija board! I read through this entire book while waiting for my children to get out of school and was horrified to find this "subtle" information posted deep inside the book. I can't tell you how upset I was to find something so random in a child's "how to" book about the holidays. I give it 4 stars, because 90% of the info in the book was acceptable.
