ISBN-10: 1580863639

ISBN-13: 978-1580863636

Product Dimensions: 9.7 x 7 x 1.5 inches

Shipping Weight: 3 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 3 customer reviews

Best Sellers Rank: #4,255,593 in Books (See Top 100 in Books) #82 in [Books > Teens > Education & Reference > Reference > Dictionaries](#) #315 in [Books > Teens > Education & Reference > Science & Technology > Physics](#) #357 in [Books > Teens > Education & Reference > Science & Technology > Chemistry](#)

Age Range: 12 and up

Grade Level: 7 and up

Customer Reviews

This richly illustrated reference guide is more a condensed, advanced high school course in physics, chemistry and biology than a traditional dictionary. Each topic - listed by subject and not alphabetically - is explored through colorful, detailed charts, graphs and tables; cross-referencing links the major branches of the natural sciences. Middle school-aged children may not be ready for such an extensive, sophisticated text, but high school students will find the straightforward definitions and comprehensive index essential study companions. A 2000 Parents' Choice® Recommended winner. Reviewed by Parents' Choice® 2000 -- From Parents' Choice® --This text refers to an out of print or unavailable edition of this title.

Very informative my son uses it for extra information

Great addition to our home library.

About 15 years ago, as a 9 year old, I read the three books that make up this Dictionary of Science (the Biology, Physics and Chemistry ones). I was completely captivated by them, and read them over and over again. The science is pitched at exactly the right level for children: the colourful illustrations and short sections retain a child's attention. I went on to take biology, physics and chemistry A-levels at age 17, and went on to study Medicine at Cambridge University in England. Obviously there was more to this achievement than the Usborne books I read as a child, but I honestly do attribute much of my initial interest to them.
